I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management. I support Alternative 1.

While there are hundreds of miles of water in Georgia that boaters can use, there are much fewer miles where anglers can pursue trout. By opening up this pristine body of water, a new precedent will be set for opening up the few areas where anglers can enjoy the solitude of the river nationwide.

Thank you!
