Subject Upper Chattooga

I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. As a congressionally designated wild and scenic river, the Chattooga is among the few remaining wild places in the state that still provides a high-quality solitude and wilderness experience. That would completely change if the Upper Chattooga area would be opened to boating.

The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management. I support Alternative 1.

Thank you!
