I am in support of a camping fee on BLM lands, including 18 Road. I also think it is time to have permitting for mountain biking, from $15 to $25 annual fee. There are a ton of bikes on the trial system in Colorado, especially in Grand Junction, and it should not be a free ride as I see BLM out on the trails all summer and winter and always ask myself who pays for all this, US tax payers that for the most part do not mountain bike. The users should help pay to maintain the trail system and build new trails.

I truly appreciate all that the BLM does and the great trail system we have in GJ.
