I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management. I am a canoeist and trout fisherman, but I strongly beleive that areas as wild and beaufiful as the Upper Chattoga river should not be open to boating. The 36 miles of the river, below Highway 28, provides ample space for boating activites. I support Alternative 1. Thank you!
