I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique geological and cultural resource that is being polluted and destroyed with the stocking of non-native fish and the human impacts associated with fishing. I would support the banning of all stocking of non-native fish in the wilderness area and would welcome the introduction of low impact sports such as boating. I support Alternative 8.

The River belongs to everyone that is willing to enjoy, preserve, AND share everything that it offers. It is not "OUR" river as stated on THIS very website.
