I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management.

Please do not make any changes since this will alter the "Wild and Scenic" setup of this river. It will no longer be a river of solitude and wilderness if the status changes.

I support Alternative 1.

Thank you!
