Subject:	please stop denying rights to lands my taxes pay for
Date:	08/18/2008 11:46 PM

Dear U.S. Forest Service,

please do what is right in the fight over the headwaters, allow all users including boaters equal access to what is rightfully the property of every tax paying American.

This is not China, Russia, or Nazi Germany.....this is AMERICA, land of the free. Allowing one or some user groups while denying others is not only unfair, but un-American and an atrosity to what this country stands for. Allowing equal access will go a long ways in the nations opinion of the stewards of 'our' lands, here and across the nation.
I trust that the right decision will be made in overturning this constitutionally illegal ban on boating that has denied many their right as an AMERICAN to experience the river in a form that is non-motorized and very low impact.

Please allow boating on the Chattooga headwaters.
