I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management. I support Alternative 1. There are MANY other areas already open to boaters, kayakers, and rafters, and therefore, I don't believe that leaving this stretch of the Chattooga River off limits will in any way restrict their enjoyment of Georgia's waters. Please consider leaving this area open only to anglers and hunters or, at the very least, open it only to limited boating use.

Thank you very much for your time!
