I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management. I support Alternative 1.

It seems to me that right now there are places for boating and wilder areas for hikers and fishermen; it would be a irreversible mistake to turn the entire river over to the boaters and leave nothing for the rest of us!

Thank you!
