I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique geological and cultural resource that is being polluted and destroyed with the stocking of non-native fish and the human impacts associated with fishing. I would support the banning of all stocking of non-native fish in the wilderness area and would welcome the introduction of low impact sports such as boating. I support Alternative 8 modified which allows boating in the same locations, seasons, and amounts as all other existing uses.

Thank you!
