I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique geological and cultural environment that is being polluted and harmed with the stocking of non-native fish and the human impacts associated with fishing and high-impact camping. I would support a ban on the stocking of all non-native fish species in the wilderness area and would welcome the introduction of low impact sports such as non-commercial boating. I support Alternative 8. Thank you.

Sincerely,
Reed Moore
