I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management.

"I support Alternative 1."

This is not a knee jerk reaction by me directed by someone else. I am Environmental Compliance Ecologist and have been employeed by both the public and private sector. General mitigation efforts in this state have been minimally successful in this state. Some areas we must preserve and this is one of them.

Thank you!
David Haire
