Subject:	Chattooga boater access
Date:	07/22/2008 12:32 PM

Dear Sirs: I have been a white water boater for forty years. Ther is no doubt that river running is the most benign way to expose members of the public to wild and senic rivers in terms of enviromental impacts. Closing boater access to the Chattooga makes no sense if the ultimate goal is continued public support for USFS attempts at preservation. James Boulger
