I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management. I have camped, hiked and fished this area of the Chattooga River for many years. The negative impacts does not justify this additional heavy use. This area should not be opened for boating of any type. I also do not believe that your agency should be taking comments pro or con concerning a Georgia river from anyone that does not live in Georgia or South Carolina. They do not have standing on this matter.
I support Alternative 1.

Thank you!
