I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management. I support Alternative 1.
I am disabled to the point that I can only walk a few feet at a time. I am working on improving this and am awaiting surgery that may help me very much. I would like to know what-if anything- is being done or considered to make this "foot access only" primitive area available to those that are physically challenged
Thank you!
