Subject:	I support Alternative 1 or 3 for the Upper Chattoga
Date:	08/17/2008 08:58 AM

Thank you for the opportunity to comment on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique river and area that will be negatively impacted by the human impacts associated with boating and would be best protected by no additional boating access or major changes in the current management. I support Alternative 1 or 3. More emphasis should be placed on providing and protecting quality fishing experiences and the unique fish habitats managed by the Forest Service in the southeast.

Thank you!
