I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management. I support Alternative 1.

Thank you for understanding and i am sure they feel valid in there action but we need areas that will not be affected buy boat usage the sad part is some people would be responsible but there are way to many that would not I was young when the float the hooch was big think of all the glass bottles that ended up in there not everyone ruined it but it sure got ruined.
