**Subject:** Call for Nominations for FY 2008 WFW Continuing Education for Natural Resource Professionals

**To:** Forest Supervisors

### **OPTIONAL REPLY DUE AUGUST 17, 2007**

The Watershed, Fish, Wildlife, Air, and Rare Plants Staff at the Washington Office is now accepting nominations for the FY 2008 Continuing Education Program for Natural Resource Professionals (CE-WFW). The CE-WFW is **celebrating 20 years** of providing valuable interdisciplinary continuing education.

We invite all employees to review the [selection of workshops](#). Many workshops, such as *Leadership & Communications*, are applicable to employees from any natural resource management discipline or staff area. Line officers will be particularly interested in *Natural Resource Policy, Values & Economics; Endangered Species Act for Line Officers*; and *Water Resource Management for Line Officers*. The CE-WFW web site ([www.fs.fed.us/biology/education](http://www.fs.fed.us/biology/education)) provides detailed information on workshop content and travel, including a [downloadable brochure](#). Hard copies of the FY 2008 brochure are being mailed directly to forests, districts, and line officers.

Region 2 participants should register directly through AgLearn by August 17, 2007. Help with the registration process is available at [www.fs.fed.us/biology/education/howto](http://www.fs.fed.us/biology/education/howto), or you can contact Nancy Warren (phone 303-275-5064) for assistance.

Please be aware that the nominating office is committed to pay the full costs of tuition once a nominee has been confirmed for workshop attendance. Confirmed participants will be notified in September.

The WFW continuing education program offers a broad array of outstanding short courses, which are continually improved through participant input, evaluations, reviews, and analysis of changing needs and technologies in natural resources today. I encourage you to consider taking advantage of this outstanding opportunity.

ROBERT L. VAUGHT  
Director, Renewable Resources
