I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management. I support Alternative 1.

Thank you!
Vernon D. Clark

PS: Why are we always in a hurry to screw things up instead of saving things?

Answer: Because we are human and we can! (Not a good answer but it seems the only answer we know, and that is why history repeats itself time and time again. So lets change history and leave things that are working alone).
