I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management. The Chatooga's current pristine state needs protection from further human traffic and pollution. Boaters can enjoy the lower Chatoog fully without exploiting this precious place. I support Alternative 1.

Thank you!
