I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management. I support Alternative 1.

We have limited examples of this kind of pristine environment, and it would be too difficult to undo it once it was opened up to boat traffic. Please keep this stretch of river in its current status.

Thank you!
