We have very few designated wild and scenic rivers almost all others are open so why take this one away from us.
.....We need more not less !.....

I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management. I support Alternative 1.

Thank you!
