I appreciate the opportunity to voice my opinion on the Upper Chattooga Environmental Assessment. The Upper Chattooga is a unique biological and cultural resource that will be changed forever by the human impacts associated with boating and would be best protected by no change in the current management. I support Alternative 1.

I have spent quite a lot of time along the Upper Chatooga both as a fishermen and as a wildlife student, wildlife Technincian and Wildlife Biologist. I very much support maintaining the current managment strategy.

Thank you!
