

TYPE 3 LOGISTICS COORDINATOR

AD-F = \$17.28

This position serves as the focal point for logistical support to type 3 fire organizations and incident management for Federal and State agencies within the Great Basin Geographic Area. The incumbent works for the Dispatch Coordinator or Type 3 Incident Commander and assists with the organization and set-up of type 3 organizations; including manage the arrivals and departures of fire crews and personnel through incident camp. The incumbent coordinates the orderly transfer of incoming personnel and equipment from aircraft on the ramp to busses and ground transportation for delivery to incidents. The incumbent insures that food; water and adequate facilities are provided and maintained for personnel. The incumbent works with contractors and vendors to insure completion of services and projects according to specifications. Incumbent places all orders for incident supplies and equipment and anticipates additional needs of the type 3 organization. Receives and distributes all supplies and equipment (other than primary tactical resources), and is responsible for the service and repair of tools and equipment.

This individual will coordinate with local and Great Basin caches, dispatch centers including expanded dispatch, and local units to provide input and assistance on orders as well as recommend sources for service. The incumbent should have a working knowledge of cache management, ordering processes and incident command system.
