

Western Nursery Pathology Workshop

In Conjunction with WIFDWC

Monday, September 9, 2002

Powell River, BC

To Nursery Pathologists
and other interested parties,

Please join us for the 21st annual **Nursery Pathology Workshop** to be held in conjunction with the Western International Forest Disease Work Conference. The **Nursery Pathology Workshop** will begin Monday, September 9, 1 to 5 pm, and continue as the group decides.

The **Nursery Pathology** group looks forward to hearing from everyone about your news, projects, and concerns. Please come prepared with an informal presentation of around 10 minutes, to allow plenty of discussion time. Audio visual projection devices will be available.

Please register for the Nursery Pathology Workshop using the WIFDWC registration form linked to this website, and return it to StefanZeglen by August 19, 2002.

Hope to see you in British Columbia.
