

1 **ANGELES OPERATIONS:** Please don't, you know, do nothing to
2 her because we do need her.

3 So, but, you know, she needed a little break.

4 But I'm going to let you talk to (b) (6)

5 (b) (6) Oh, okay.

6 **ANGELES OPERATIONS:** Okay.

7 **ANGELES OPERATIONS:** Hello?

8 (b) (6) Hello.

9 **ANGELES OPERATIONS:** What you need?

10 (b) (6) He said for me to tell you that -- (b) (6) 's going
11 to be off Wednesday; right?

12 **ANGELES OPERATIONS:** She's actually going to be in, leave
13 early so she can make it to her appointment.

14 (b) (6) She's going to be in Tuesday night and go to her
15 appointment early Wednesday?

16 **ANGELES OPERATIONS:** That is correct.

17 (b) (6) And then she can have the rest of Wednesday off.
18 And she's -- we're going to put through the basics on Thursday.

19 **ANGELES OPERATIONS:** She didn't tell me that.

20 (b) (6) Yeah. (Inaudible) but I'm just saying, I want
21 (b) (6) to pick up Thursday. That's on Thursday.

22 **ANGELES OPERATIONS:** Then who do I get?

23 (b) (6) Nobody.

24 **ANGELES OPERATIONS:** You've got to be kidding, I'm going
25 down to two?

1 (b) (6) You and the three boys.

2 ANGELES OPERATIONS: You've got, like, six now.

3 (b) (6) I -- I'll give you (inaudible).

4 ANGELES OPERATIONS: Hell, no.

5 Oh, recorded line. Sorry.

6 No, thank you.

7 (b) (6) Well, Tuesday (inaudible) day shift it'll be
8 easier for me to get the day shifters all days off --

9 ANGELES OPERATIONS: Well --

10 (b) (6) -- at least one day off each.

11 ANGELES OPERATIONS: Well, then when do night shift get a
12 day off?

13 (b) (6) As soon as you figure out how you're going to do
14 it.

15 ANGELES OPERATIONS: Well, I'm going to steal back from
16 the day shift.

17 So what day do you want her back on?

18 (b) (6) Thursday.

19 ANGELES OPERATIONS: 7:00 a.m.?

20 (b) (6) Yeah.

21 ANGELES OPERATIONS: Yeah. Because I'll need one back
22 here to rotate for their days off.

23 (b) (6) Well, I'll tell you what, why don't we put her
24 through -- what do you think about Wednesday?

25 Because, I mean, I just want to -- well, no. Then

1 she's on Thursday a full day.

2 **ANGELES OPERATIONS:** Yeah. If you're going -- if (b) (6)'s
3 taking all Thursday off.

4 (b) (6) Yeah. So maybe what I'll do is (inaudible)
5 Thursday a full day for her, and then Friday -- starting
6 Friday, maybe a swing shift, like a 10:00- or 11:00-thing.

7 Because I want -- I only want two dispatch people --

8 **ANGELES OPERATIONS:** Well --

9 (b) (6) -- (b) (6) --

10 **ANGELES OPERATIONS:** -- sure he's not picking it up?

11 (b) (6) I -- I know it's a little complex right now.

12 **ANGELES OPERATIONS:** Okay. So 11:00 to 23:30?

13 (b) (6) Yeah. I think something like that would work.

14 **ANGELES OPERATIONS:** For Friday?

15 (b) (6) And probably for the duration, or whatever how --
16 run with that for a while.

17 **ANGELES OPERATIONS:** Okay.

18 (b) (6) That would probably be sufficient because that
19 would give me somebody in the evening, as well.

20 **ANGELES OPERATIONS:** Yeah.

21 (b) (6) Yeah. Even if -- that sounds good.

22 **ANGELES OPERATIONS:** Okay. I will let her know.

23 (b) (6) Yeah. It's best not to talk about it if -- if she
24 doesn't mention it to you.

25 **ANGELES OPERATIONS:** Yeah. She's going to kill you.

1 (b) (6) Huh.

2 ANGELES OPERATIONS: (b) (6) doesn't want to go to days.

3 (b) (6) She does.

4 ANGELES OPERATIONS: She -- she -- then who do I get for
5 an aircraft dispatcher in here?

6 (b) (6) When?

7 ANGELES OPERATIONS: In the morning. (b) (6) starts
8 getting busy, like, at 4:30, 5:00 with her aircraft stuff.

9 (b) (6) I'd get (b) (6).

10 ANGELES OPERATIONS: (b) (6)? No. No. That won't work.

11 That's too complex.

12 (b) (6) Well, I don't know, but --

13 Well, then, she can come in 7:00 - 7:00.

14 ANGELES OPERATIONS: 7:00 --

15 (b) (6) When does she start getting busy?

16 ANGELES OPERATIONS: (b) (6) what time do you start
17 getting busy with the aircraft, the phone calls and everything?

18 (b) (6) I usually start calling (inaudible) 5:30.

19 ANGELES OPERATIONS: 5:00, 5:30.

20 Because if I have to take over the aircraft and do
21 the aircraft in that time, then that's what my job is, is I'm
22 just going to concentrate on aircraft. I'm not going to worry
23 about when they run in here in the morning and they're all
24 crazy and they can't figure out who's doing what.

25 (b) (6) No. Well, we'll have to figure something out.

1 Well, we'll try to talk about it some tomorrow.

2 **ANGELES OPERATIONS:** Okay. But do you want me to go ahead
3 and tell (b) (6) to plan on this for now, then?

4 (b) (6) Yeah. Because I definitely need to cover
5 Thursday.

6 She -- I mean, it's a little complex right now to get
7 someone with -- that's still loading aircraft in it --

8 **ANGELES OPERATIONS:** Okay.

9 (b) (6) -- so --

10 **ANGELES OPERATIONS:** I will let her know.

11 (b) (6) So, all right.

12 **ANGELES OPERATIONS:** All right. See you in the morning.

19 How can I help you?

20 **(b) (6)** Dang, you sound cheerful and happy this morning.

21 **ANGELES OPERATIONS:** No, I'm not, man. I've been up all
22 night, dude.

23 **(b) (6)** So you're just delirious?

24 **ANGELES OPERATIONS:** Yes. Call me delirious.

25 **(b) (6)** What's going on, **(b) (6)**

2 (b) (6) Yep.

3 **ANGELES OPERATIONS:** End my day with a smile, you know?

4 (b) (6) Yeah. Yeah, I do. (Inaudible.)

5 Well, hey, man, Patrol 15 is in service.

6 **ANGELES OPERATIONS:** What you got out to do today,
7 brother?

8 (b) (6) Say that again.

9 **ANGELES OPERATIONS:** I said, what you got planned today?

10 You going to save your part of the district?

11 (b) (6) Yes, I am. I am part of the district.

12 **ANGELES OPERATIONS:** I said, "Are you going to save it?"

13 (b) (6) Oh. You know what, dude? I'll be honest with you,
14 I was telling my wife, we needed this fire just for (inaudible)

16 **ANGELES OPERATIONS:** Not like this, though.

17 (b) (6) You know what? Not -- not with people getting hurt
18 and houses being burned, but --

19 **ANGELES OPERATIONS:** Well, you know the acreage right now
20 is 85,000 acres.

21 (b) (6) Wow.

22 **ANGELES OPERATIONS:** This fire's been doubling every day.

23 (b) (6) Man.

24 **ANGELES OPERATIONS:** Every day, this fire's been -- I
25 mean, I'm not talking 5,000 acres run. It happened 20 and

1 30,000 acres run.

2 (b) (6) Yeah. Yeah.

3 **ANGELES OPERATIONS:** That's -- that's catastrophic, man.

4 I -- I've never been -- I've never seen some -- where
5 are you in service to, first of all, (b) (6)

6 (b) (6) Area 20.

7 **ANGELES OPERATIONS:** Okay. I've never seen a fire move --

9 (b) (6) Yeah.

10 **ANGELES OPERATIONS:** -- in California.

11 (b) (6) Yeah.

12 **ANGELES OPERATIONS:** I mean, I've seen it like this in
13 Alaska numerous times, man. But, dude --

14 (b) (6) No, you're right, dude.

15 I was over in Big T, and I was like, "Man." That
16 fire was -- was doing things I hadn't seen -- only last time
17 was in '93 over at the (inaudible) fires.

18 **ANGELES OPERATIONS:** Oh, okay. Yeah, so --

19 (b) (6) (Inaudible) I -- I hear that. I (inaudible) yep.

20 **ANGELES OPERATIONS:** You know, to be 5,000 acres one day,
21 and then you come in here, it's 15, it's 18. And the next day
22 it's 30-something. The next day it's 50. A couple days later
23 now, it's 85.

24 This fire's five days old. It started on the 26th, I
25 think; right?

1 (b) (6) Yeah. I believe so.

2 ANGELES OPERATIONS: Okay. And where -- and today is the
3 31st.

4 (b) (6) Yep.

5 ANGELES OPERATIONS: And it's -- and it's -- it's not even
6 a five full days.

7 (b) (6) Right. Right.

8 ANGELES OPERATIONS: Because it started -- I don't know
9 exactly what time it started. But it started probably 3:00 --

10 (b) (6) Yeah. Yeah, 3:30.

11 ANGELES OPERATIONS: -- 3:20.

12 (b) (6) Yep. Yep.

13 ANGELES OPERATIONS: So, dude, man, that's -- that's some

15 But just be (b) (6) out there, brother.

9 And you said, "Yeah. In my truck."

10 And I said, "Did you deploy your shelter?"

11 And you didn't answer me. And I didn't know if maybe

13 See, because I think -- you know, from in here, too,
14 we haven't -- we haven't really heard anything else about it.

15 **CALLER:** Right.

16 **ANGELES OPERATIONS:** So besides that -- you know, after
17 what happened that night.

18 So -- I mean, but the overall -- I think the gist of
19 it is that we were just glad that you're okay. And I know that
20 what we did in here was the right thing --

21 **ANGELES OPERATIONS:** Right.

22 **CALLER:** -- to keep you safe because --

23 **CALLER:** Yeah. Yeah, I know. I mean, and it was -- it

5 alone.

6 You know, I knew that --

13 **ANGELES OPERATIONS:** Right.

14 **CALLER:** I was afraid -- the last thing that I wanted was
15 for somebody to get hurt trying to get in, you know, and so
16 that -- that --

c2626_31_08_2009_173104

19 **CALLER:** No. It -- it -- I mean, it helped. And
20 knowing -- and knowing that there was aircraft overhead and
21 they were -- and I -- I knew they weren't going to (inaudible)
22 because it was so black, it was pitch black.

23 **ANGELES OPERATIONS:** Yeah.

24 **CALLER:** And that is why I -- and I
25 cancelled -- I cancelled a drop when I talked to Chief 2. And

1 then a few minutes late, we grouped (inaudible) until I was
2 trying to coordinate it with you. And -- and I called him and
3 told him to cancel.

4 **ANGELES OPERATIONS:** Uh-huh.

5 **CALLER:** Because even -- even after that there was --
6 there was two more -- after that, the sky started clearing, and
7 then it went black again.

8 **ANGELES OPERATIONS:** Yeah.

9 **CALLER:** And there was at least two more heat blasts
10 that -- that came down low. But now we're going on to the next
11 (inaudible.) I thought, "Oh, no. Maybe I shouldn't have
12 cancelled the drop."

13 **ANGELES OPERATIONS:** Yeah.

14 **CALLER:** Maybe I shouldn't have cancelled the drop. But
15 then those last two were -- it was the last ones after that.

16 I mean, total, there was -- I don't know. There's a
17 lot.

18 **ANGELES OPERATIONS:** Well, there's a lot. But you -- I
19 think from the beginning you did the right thing by telling us
20 where you were at.

21 **CALLER:** Did you -- did you hear how I got back?

22 **ANGELES OPERATIONS:** No.

23 **CALLER:** Okay. It's -- okay. Everything that I -- I
24 mean, I -- I have to be careful with what I say because, like,
25 there's -- there's a few investigations going on.

1 But I can, you know, say what I told the safety
2 officer because that can be fire records. And that's that --
3 when I -- when (inaudible) that's where I found the truck. Not
4 too long after that is when I ran into the first fire.

5 **ANGELES OPERATIONS:** Uh-huh.

6 **CALLER:** And I went into the scene. And when I was -- I
7 went to exit the scene, I was still able to get out of what I
8 got into.

9 **ANGELES OPERATIONS:** Right.

10 **CALLER:** The problem was, just as I was about to come out,
11 there was a new fire that had started behind me at both
12 (inaudible).

13 **ANGELES OPERATIONS:** Right.

14 **CALLER:** And so it, you know -- so that's where -- that's
15 what the problem -- and it -- it wasn't a spot fire because of
16 the wind and everything. There is a lot going on with the
17 investigation.

18 But, you know, the -- the bottom line is: I went
19 in -- well, when I -- when I called you --

20 **ANGELES OPERATIONS:** Uh-huh.

21 **CALLER:** -- initially --

22 **ANGELES OPERATIONS:** Yeah.

23 **CALLER:** -- from -- the first details that they
24 (inaudible) the first time that I could (inaudible) --

25 **ANGELES OPERATIONS:** Right.

1 **CALLER:** I went into the fire. And then -- and then on my
2 way out, the place where I was at, or somewhere around there,
3 there was new stuff.

4 **ANGELES OPERATIONS:** Right.

5 **CALLER:** And -- and -- and at that point, when I thought
6 the fire was transitioning from, like, the beginning stages --
7 like, within a matter seconds -- because I was watching it --
8 it, it just started (inaudible).

9 And that was when -- the -- the only way to -- to try
10 to get out was to go to into the big bowl.

11 **ANGELES OPERATIONS:** Right.

12 **CALLER:** And if I wasn't able to get through that way,
13 then I -- then I was going to have to stack through the smoke
14 on a narrow road like that.

15 You know, I was going to be stuck in a -- in a bowl.

16 **ANGELES OPERATIONS:** Right.

17 **CALLER:** (Inaudible.)

18 **ANGELES OPERATIONS:** Right.

19 **CALLER:** So after looking at that, that -- you know, that
20 was when I said that I had fire on both sides.

21 And at that time, I still wasn't 100 percent sure if
22 I was going to get trapped in that or not. And I was still
23 looking for a way out.

6 you were -- you were able to give me your -- your coordinates
7 of where you were exactly at.

8 **CALLER:** And then after that -- by that time -- well,

16 **CALLER:** And that -- which is fine. I dropped my phone,
17 and I couldn't find it.

18 **ANGELES OPERATIONS:** Uh-huh.

19 **CALLER:** And then I had my personal cell phone, and I
20 couldn't get reception. I mean, at one point it just -- it
21 froze, the screen went white. And I just couldn't believe it
22 that it froze on me (inaudible.)

23 **ANGELES OPERATIONS:** Yeah.

24 **CALLER:** Then after that, then that's when the phone rang.
25 I could hear my phone ringing. And that was the only one that

1 I had gotten it. I could hear it ringing.

2 So I literally -- I haven't -- I didn't really think

8 **ANGELES OPERATIONS:** Well, yeah. And then they kept --
9 but they never always -- they never really referred to that

12 residences, ranger residences.

4 **ANGELES OPERATIONS:** Yeah.

5 **CALLER:** (Inaudible.) I know of one other neighbor that

8 cabins gone.

9 **ANGELES OPERATIONS:** Yeah. I mean, it -- we -- you know,
10 it's -- it's still -- the thing is still active. I mean, in
11 other -- it's weird because it's moved all around and -- and so
12 there's -- there's certain stations up in the forest that
13 they're -- that they're still on a defensive mode up there.
14 They just don't know what's going to happen. You know, like
15 Chilao and --

16 **CALLER:** Sure.

17 **ANGELES OPERATIONS:** -- and all those --

18 **CALLER:** (Inaudible.)

19 **ANGELES OPERATIONS:** What's that?

15 **CALLER:** Yeah. It was on the Internet, I guess.

16 **ANGELES OPERATIONS:** Huh.

17 **CALLER:** Yeah.

18 **ANGELES OPERATIONS:** Wow. I'm sorry to hear that.

19 **CALLER:** Yeah, (inaudible). You know, (inaudible), well,
20 I had that guy's card. Oh, no -- no, I don't. Well, then I'll
21 go get my -- no, I guess I won't.

22 **ANGELES OPERATIONS:** Yeah. Well, what's so strange is is
23 that, you know, you -- you -- you -- you become so preventive
24 in the sense of other things that could possibly effect the
25 stability in that area. You know, like people coming in that

1 are reckless and all this.

2 **CALLER:** Yeah.

3 **ANGELES OPERATIONS:** And -- and -- and -- you know, you've
4 been pretty diligent on that. You know, and -- and it's -- and
5 then it's something like this --

6 **CALLER:** Yeah.

7 **ANGELES OPERATIONS:** Which is just so totally kind of out
8 of -- out of control.

9 **CALLER:** It happens. You know -- even know how it
10 started?

11 **ANGELES OPERATIONS:** No, I -- I'm not -- I don't know. I
12 don't know.

13 **CALLER:** (Inaudible.) (Inaudible) took off so fast.
14 Well, the point of origin was on the (inaudible), is that
15 right?

16 **ANGELES OPERATIONS:** Yes. North -- north of Angeles Crest
17 Ranger Station. So when they pick a name, they -- they don't
18 want to use a name that's been used in prior fires for that
19 year.

20 **CALLER:** (Inaudible.)

21 **ANGELES OPERATIONS:** So I guess the name that came up
22 because it was close to the station was "Station."

23 **CALLER:** Station.

24 **ANGELES OPERATIONS:** So that's how it got that name.

25 **CALLER:** The Angeles Crest Fire Station, huh?

1 **ANGELES OPERATIONS:** Yeah. Well, yeah, but the -- the
2 station -- the Station Fire.

3 **CALLER:** Uh-huh.

4 **ANGELES OPERATIONS:** But --

5 **CALLER:** Is that a U.S. Fire Service or an L.A. County
6 Fire Station? (Inaudible.)

7 **ANGELES OPERATIONS:** Oh, it's forest service, yeah.

8 **CALLER:** Uh-huh. So it was up in the forest where it
9 started, (inaudible).

10 **ANGELES OPERATIONS:** Yeah, it's about -- it's -- if you've
11 ever been up the Angeles Crest Highway -- yeah, it's just past
12 the -- the second real big turnout at the bottom.

13 **CALLER:** Okay. I -- yeah, I know exactly where that is.

14 **ANGELES OPERATIONS:** Yeah. There's a -- couple residences
15 there and --

16 **CALLER:** (Inaudible.)

17 **ANGELES OPERATIONS:** -- and all that. But it's like --
18 it's not like the fire moves through and -- and, you know, and
19 -- and then you don't have to worry anymore. I mean -- I mean
20 there's -- they still don't know. I think it's back up and
21 move around and I don't know. Because now Mount Wilson's being
22 threatened.

23 **CALLER:** I saw that. And I (inaudible) two guys tried to
24 protect their house in Big Tujunga and got in the hot tub and
25 just about got boiled. And they're in the burn hospital. They

1 couldn't even -- you know, I went through the '75 fire, and
2 it -- you know, it came on this side of the mountain one way
3 and then it came on the side of the mountain the other way.
4 You know?

5 **ANGELES OPERATIONS:** Uh-huh.

6 **CALLER:** It was -- and we made it. We made it okay. And
7 this time it was -- I mean, intense fire balls that was on both
8 sides of the canyon. And I'm telling you (inaudible) --
9 ///

10 **c2727_31_08_2009_043707**

11 **CALLER:** -- (inaudible). Oh, between 100 feet, you know,
12 from the -- from the (inaudible) clear up probably 2,000, you
13 know.

14 **ANGELES OPERATIONS:** Uh-huh.

15 **CALLER:** It was a line of fire with the flames shooting
16 200 feet in the air. It was roaring like about ten freight
17 trains. It was -- we rode it out in the delta, (inaudible).
18 By the time they -- they told us, "It's a half-mile from the
19 ranger station." So we got out first load of people out.

20 **ANGELES OPERATIONS:** Uh-huh.

21 **CALLER:** And they said (inaudible) got -- you know, we
22 thought, okay, we got another couple hours. So we were
23 (inaudible). We got like 12,000 extra gallons of water. We
24 couldn't even (inaudible). We had to just get in the car and
25 drive to the delta and the fire, you know, (inaudible) ride the

1 fire out.

2 **ANGELES OPERATIONS:** Uh-huh.

3 **CALLER:** (Inaudible) but (inaudible) house burn from the
4 delta.

5 **ANGELES OPERATIONS:** Oh, wow.

6 **CALLER:** Oh, yeah. (Inaudible) horses we just turned them
7 loose, some of them. Some of them we got out. Some of them
8 (inaudible) -- they wouldn't -- they (inaudible) at the bottom
9 of the canyon and wouldn't let them come in.

10 **ANGELES OPERATIONS:** Huh.

11 **CALLER:** (Inaudible) it's just all of a sudden things
12 flared up so fast. Everybody thought they had another six
13 hours. You know?

14 **ANGELES OPERATIONS:** Right.

15 **CALLER:** Yeah. I (inaudible).

16 **ANGELES OPERATIONS:** Wow.

17 **CALLER:** (Inaudible.)

18 **ANGELES OPERATIONS:** Yeah.

19 **CALLER:** Guess I get a new life because I don't have an
20 old one left.

21 **ANGELES OPERATIONS:** Well, you know, I've never been in
22 this situation, so I -- I can't really say anything that's, you
23 know, kind of relative. I always -- I always like to have a --
24 what do you call it? -- a sort of a -- a parallel experience
25 where you can kind of measure it.

1 Now, I have stuff that's bad that's very different,
2 you know, which effected me in other ways and changed my life
3 around.

4 **CALLER:** Yeah.

5 **ANGELES OPERATIONS:** You know, and -- and -- and when that
6 happened, you know, I thought that, you know, I was wit's end.
7 But it's -- it's -- it's strange. I mean, I -- when I was --
8 in '85, I lost the use of my legs.

9 **CALLER:** Oh, my.

10 **ANGELES OPERATIONS:** And it was -- like it happened
11 overnight. It was a --

12 **CALLER:** (Inaudible.)

13 **ANGELES OPERATIONS:** -- it was a -- a rare virus.

14 **CALLER:** (Inaudible) attack your central nervous system.

15 **ANGELES OPERATIONS:** Right. And -- and I just woke up a
16 paraplegic.

17 **CALLER:** Oh, I'm terribly sorry.

18 **ANGELES OPERATIONS:** Well, no but -- there was a good side
19 to it. And that's that I -- I regained -- you know, regained
20 the use to a point where now I use a cane, but I can walk.

21 **CALLER:** (Inaudible.)

22 **ANGELES OPERATIONS:** But -- but this happened 20 -- you
23 know, this happened in '85.

24 **CALLER:** (Inaudible.)

25 **ANGELES OPERATIONS:** So I've -- and that's what got me out

1 of fire fighting, so then I wound up in dispatch.

2 **CALLER:** Uh-huh. At least (inaudible) good job.

3 **ANGELES OPERATIONS:** What?

4 **CALLER:** That was a plus for the forest's sake, I have to
5 say.

6 **ANGELES OPERATIONS:** So -- but I was just saying, you
7 know, it was really bleak for a while.

8 **CALLER:** (Inaudible.)

9 **ANGELES OPERATIONS:** Yeah.

10 **CALLER:** It's going to be real different. I don't --
11 (inaudible).

12 **ANGELES OPERATIONS:** But you -- you -- you'll interject --
13 people are very resilient and they -- and they interject
14 normalcy into their life, and pretty soon, that normalcy, you
15 know, takes on a -- a life of it's own.

16 **CALLER:** Yeah. Well, that's right. Guess you got to keep
17 going. I mean, they wouldn't even let -- you know, my husband
18 was in a hospital bed in our living room and three guys had to
19 carry him out and they wouldn't let us take the oxygen
20 (inaudible) too flammable.

21 **ANGELES OPERATIONS:** Oh, yeah

22 **CALLER:** Some guy from Montecito, California. And all of
23 a sudden, it was really unbelievable because all of a sudden he
24 got up and he said, "You know what" --

25 **ANGELES OPERATIONS:** Uh-huh.

1 **CALLER:** -- "I'm going to walk out of here, because
2 they're -- they're not going to carry me. It's in my house and
3 I -- I (inaudible) leave, I'm going to walk out." And he did.

4 **ANGELES OPERATIONS:** Huh.

5 **CALLER:** He walked to the car and got in it. Yes, he did.

6 **ANGELES OPERATIONS:** Yeah.

7 **CALLER:** Yeah. And (inaudible), and he said, "I can do
8 it. I (inaudible)." I said (inaudible).

9 **ANGELES OPERATIONS:** But --

10 **CALLER:** This is not a survivable fire. I've been through
11 a few. This was not one of them.

12 **ANGELES OPERATIONS:** Yeah.

13 **CALLER:** Yeah. When I saw everything that was coming --
14 it was -- the whole canyon was full of fire. The whole thing.

15 **ANGELES OPERATIONS:** Well, I drove through just after that
16 little one earlier this year.

17 **CALLER:** Right.

18 **ANGELES OPERATIONS:** You know, I don't know what it was,
19 three acres?

20 **CALLER:** Yeah.

21 **ANGELES OPERATIONS:** You know? And I was amazed that, you
22 know, everything was -- the hills were so steep there and along
23 the sides, and it was still smoldering and they had fire
24 fighters all over the area, but it was like, you know -- I
25 can't imagine, you know, the -- the -- everything on fire. I

1 mean, it would -- it would just --

2 **CALLER:** (Inaudible.)

3 **ANGELES OPERATIONS:** Just be insane, you know.

4 **CALLER:** (Inaudible) when the fire passes over you with
5 all the smoke, it just -- it just gets totally black. And then
6 it -- you know -- so (inaudible). And, you know, I usually
7 don't (inaudible). You know (inaudible) he screamed at me when
8 we were down at the delta, and he yelled all the way out the
9 canyon. I head him going.

10 **ANGELES OPERATIONS:** Wow.

11 **CALLER:** I know he -- I know my (inaudible).

12 **ANGELES OPERATIONS:** Huh.

13 **CALLER:** He (inaudible). He was -- he was (inaudible).

14 And I saw him go out. So I know he's okay.

15 **ANGELES OPERATIONS:** Wow.

16 **CALLER:** (Inaudible) -- isn't that wonderful?

17 **ANGELES OPERATIONS:** Yeah.

18 **CALLER:** Yeah. But I don't know how anybody else made it.

19 We had a bobcat (inaudible).

20 **ANGELES OPERATIONS:** Uh-huh.

21 **CALLER:** (Inaudible) and a mountain lion that's been
22 hanging around and I just hope they got (inaudible), because
23 where were they going to go? Everywhere they ran it
24 (inaudible) follow them, you know?

25 **ANGELES OPERATIONS:** Yeah, yeah.

1 **CALLER:** (Inaudible.) You know how far back on the
2 (inaudible) it is on the back side?

3 **ANGELES OPERATIONS:** What do you -- back --

4 **CALLER:** (Inaudible) Bear Divide, is it up in -- in Bear
5 Divide yet or --

6 **ANGELES OPERATIONS:** It -- it's -- it -- we -- I haven't
7 heard of any particular -- no, not at Bear Divide, because --

8 **CALLER:** Condor Peak, did Condor Peak burn, do you know?

9 **ANGELES OPERATIONS:** No, I don't know that. The -- the
10 only thing in that general area is North Fork.

11 **CALLER:** Right.

12 **ANGELES OPERATIONS:** You know, but we had -- we had law
13 enforcement officers up in the Bear Divide, Dillon Divide area
14 last night chasing out the public because they were --

15 **CALLER:** Oh, my God.

16 **ANGELES OPERATIONS:** Oh, yeah, they were moving the
17 barriers and they wanted to drive up there to -- to --

18 **CALLER:** Take a good look.

19 **ANGELES OPERATIONS:** Yeah. Yeah. You know, so -- but,
20 see, the information is -- is -- is -- is real piecemeal. When
21 we -- all day our -- our job in here -- because we're not --
22 we're not -- unless new fires start, we're not -- we're not
23 fighting the -- the -- that fire. It's turned over to the fire
24 team.

25 And they're -- and -- but we're -- but -- but we're

1 monitoring everything else, and -- and -- and it -- and it's
2 just a job tracking everybody running around out there because
3 the fire is concerned with the edge of it as it's spreading
4 into the urban areas. We have all sorts of facilities up in
5 the hills where forest service people live. And basically --

6 **CALLER:** (Inaudible.)

7 **ANGELES OPERATIONS:** We're not getting any real help from
8 the -- from the --

9 **CALLER:** (Inaudible.) We had nobody. We had nobody
10 because nobody was there to help us (inaudible) --

11 **ANGELES OPERATIONS:** Yeah.

12 **CALLER:** -- (inaudible) -- Montecito.

13 **ANGELES OPERATIONS:** Uh-huh.

14 **CALLER:** And I didn't have one county fire. We didn't
15 have any air support. They were all over on the La Canada
16 side.

17 **ANGELES OPERATIONS:** Yeah.

18 **CALLER:** It was terrible.

19 **ANGELES OPERATIONS:** Yeah.

20 **CALLER:** On -- up there at Bear Divide what happened?

21 **ANGELES OPERATIONS:** Well, just -- they're just get --
22 getting the public out of there and -- and I -- I kind of lost
23 my train of thought but -- but we have people -- everyday we
24 have people that -- that the forest service is basically trying
25 to take care -- or protect their own resources up there because

1 so much of the concentration of the actual organized fire
2 fighting is being done in the areas that are constantly
3 changing, the dynamics are changing.

4 So -- so we have people that are going up into the
5 woods during the -- during the daytime trying to take an
6 assessment on what we have and what we can protect, and so our
7 whole job in here a lot, during the day, if there's no other
8 new fires, is just trying to keep track of where our people
9 are. You know, because -- because you just never know, you
10 know. And -- and, you know, there's -- it's crazy. It's just
11 -- it's just totally crazy.

12 **CALLER:** (Inaudible) up at Mill Creek. How did they do
13 that? What happened?

14 **ANGELES OPERATIONS:** I don't really know much about it.
15 It's still -- I don't really know, you know.

16 **CALLER:** (Inaudible) something happened and they -- maybe
17 they couldn't (inaudible) from the smoke, because they said the
18 truck rolled down the mountain.

19 **ANGELES OPERATIONS:** You know, it -- very likely if -- if
20 that was -- if that was the -- occur up there. It -- I've
21 never up that area, but it's --

22 **CALLER:** (Inaudible.)

23 **ANGELES OPERATIONS:** It's mountain roads, you know, and,
24 you know, one side is a -- in an incline and one side a steep
25 incline and one side's a steep decline.

1 **CALLER:** Yeah.

2 **ANGELES OPERATIONS:** And it twists and turns. And if
3 you're driving in the blind, I would imagine --

4 **CALLER:** (Inaudible.)

5 **ANGELES OPERATIONS:** You know --

6 **CALLER:** (Inaudible) said one guy was from San Bernardino.
7 And the other guy was (inaudible). (Inaudible) two guys that
8 were killed. It's just terrible.

9 **ANGELES OPERATIONS:** Yeah.

10 **CALLER:** That is just terrible. And -- so it's not
11 (inaudible). I guess it's not working (inaudible) because I'm
12 sitting here and the (inaudible) still on (inaudible).

13 **ANGELES OPERATIONS:** Well, you know, when we -- when they
14 had that stupid digital trans -- transference, our -- our
15 reception never -- never happened.

16 **CALLER:** (Inaudible.)

17 **ANGELES OPERATIONS:** I got the converter box and we were
18 never able to to get any stations.

19 **CALLER:** (Inaudible.)

20 **ANGELES OPERATIONS:** So I -- we just don't have a TV. I
21 don't -- you know, haven't watched it for almost a month now, I
22 guess, or whatever it is.

23 **CALLER:** But they said that Mount Wilson was -- it was --
24 the fire was roaring up -- up to the observatory.

25 **ANGELES OPERATIONS:** Yeah.

1 **CALLER:** (Inaudible.) I don't know. It's pretty awful
2 big fire, isn't it? It's about -- they said it's about 40,000
3 acres by now, probably more.

4 **ANGELES OPERATIONS:** I think it's a little over 40,000.

5 **CALLER:** (Inaudible.)

6 **ANGELES OPERATIONS:** And that's -- and they -- and they --
7 and it's still changing. I -- there's -- you know, everyone
8 has their own ideas how big it will get. I -- I mean it's all
9 guess work.

10 **CALLER:** (Inaudible.)

11 **ANGELES OPERATIONS:** But I -- I've had -- I've heard
12 estimates as high as 106,000 by the time it's over.

13 **CALLER:** By the time it's over. Yeah. (Inaudible.)

14 **ANGELES OPERATIONS:** Well, and you know something, the
15 five percent, they had the five percent in the early stages.
16 And when the acreage increases, they still have the five
17 percent.

18 **CALLER:** Oh.

19 **ANGELES OPERATIONS:** It isn't -- there's no percentage
20 (inaudible) containment.

21 **CALLER:** No.

22 **ANGELES OPERATIONS:** I'm telling you, the five percent is
23 silly. That's like -- that's like, you know -- you know, it's
24 just -- it's -- it's miniscule. It's like --

25 **CALLER:** (Inaudible.)

1 **ANGELES OPERATIONS:** -- you know, it's like the -- it's
2 like a lottery for -- for a thousand dollars, and -- and --
3 and -- and you win 20 bucks.

4 **CALLER:** (Inaudible.)

5 **ANGELES OPERATIONS:** I mean, what's (inaudible) five
6 percent.

7 **CALLER:** (Inaudible.)

8 **ANGELES OPERATIONS:** Yeah.

9 **CALLER:** (Inaudible) clear into Acton.

10 **ANGELES OPERATIONS:** Yeah, the 14 is open. I mean, that's
11 how I get to work everyday. And only parts of Acton have been
12 mandatory evacuations. But I don't know anything about, you
13 know, what in Acton is lost, or -- or potentially lost. I -- I
14 haven't -- we don't really have that -- that much.

15 **CALLER:** (Inaudible.)

16 **ANGELES OPERATIONS:** Yeah.

17 **CALLER:** Mill Creek is gone. Let's see, what other one is
18 gone. Mill Creek burned.

19 **ANGELES OPERATIONS:** Mill Creek and -- and that's --
20 that's -- that's only the -- the only official one that I'm --
21 that I'm really aware of. Lot of the other ones that was fire
22 in the vicinity before people got out of there. And so I don't
23 -- no one's been up there since then and -- and unless somebody
24 is flying over it to see it --

25 **CALLER:** (Inaudible.)

1 **ANGELES OPERATIONS:** You know, they can't tell and -- and
2 from what I know, they -- you know, they -- no one's reported
3 anything because they can't see. There's too much smoke.

4 **CALLER:** But (inaudible) incident might be involved?

5 **ANGELES OPERATIONS:** North Fork, maybe.

6 **CALLER:** North Fork. North Fork. You know, I would
7 believe that because when we were down there in the valley, we
8 had to go out, you know, out, like, Plummer, out in the west
9 valley.

10 **ANGELES OPERATIONS:** Uh-huh.

11 **CALLER:** Oh, my God. And it got into some of the
12 (inaudible) there. It was unbelievable. (Inaudible) the cloud
13 was just unbelievable. I'm so sorry I didn't have a camera but
14 I'm sure plenty of people (inaudible).

15 **ANGELES OPERATIONS:** Oh, yeah. Oh, yeah which -- with
16 the -- yeah, camera phones and --

17 **CALLER:** Unbelievable.

18 **ANGELES OPERATIONS:** Yeah.

19 **CALLER:** Unbelievable plume of smoke. I mean it was like
20 it was a thousand feet high. I'm not kidding you. It was like
21 an atomic bomb. It was huge.

22 **ANGELES OPERATIONS:** Yeah.

23 **CALLER:** I mean -- and it went for miles across,
24 (inaudible). Well, I just feel bad for my one horse and my --
25 I had a -- I had a -- I had a cat (inaudible) program

1 (inaudible) and we just had to turn them loose, you know.

2 **ANGELES OPERATIONS:** Yeah.

3 **CALLER:** (Inaudible) down to get them.

4 **ANGELES OPERATIONS:** Oh.

5 **CALLER:** Oh, yeah, and, you know, I just -- I don't know.

6 It's really hard (inaudible) turn the horses loose in the big
7 arena. And that was pretty scary. And then we just -- they
8 just threw us in our car and they took our (inaudible) and just
9 ripped them out of our hands and said, "Go, go."

10 **ANGELES OPERATIONS:** Huh.

11 **CALLER:** We don't -- we had the clothes on our back. And
12 by the time the fire was already up on the high side of
13 (inaudible) the north side of Big Tujunga, so we couldn't even
14 exit Big Tujunga. We just turned down our driveway and went
15 into the delta and rode it out.

16 **ANGELES OPERATIONS:** Huh.

17 **CALLER:** It's pretty interesting.

18 **ANGELES OPERATIONS:** Wow.

19 **CALLER:** (Inaudible.) We just kept going from one --
20 there's a big, dirt parking lot down there, and (inaudible) off
21 into the creek, you know.

22 **ANGELES OPERATIONS:** Right.

23 **CALLER:** Yeah. And we just kept driving from one side to
24 the next. When the fire wall came on this side, we'd drive to
25 the other side, you know, and tried to make it. You know,

1 (inaudible) car.

2 **ANGELES OPERATIONS:** Wow.

3 **CALLER:** So (inaudible). We made it.

4 **ANGELES OPERATIONS:** Well, that's what counts.

5 **CALLER:** Yeah, that's right.

6 **ANGELES OPERATIONS:** You know?

7 **CALLER:** These poor fire fighters lost their lives.

8 That's horrible. That's terrible. Trying to --

12 **c2727_31_08_2009_045103**

13 (b) (6) -- a job for everybody here. Here we have it
14 again (inaudible) it is on Fox News, you know, about the fire.

15 **ANGELES OPERATIONS:** Yeah.

16 (b) (6) Yeah.

17 **ANGELES OPERATIONS:** It's kind of a curse and a blessing
18 living in Southern California. I -- frankly, I've had it with
19 the fires.

20 (b) (6) Yeah. Me, too.

21 **ANGELES OPERATIONS:** Now, they go through this -- and we
22 haven't even gotten into Santa Ana season yet. And it'll start
23 with that nonsense. And it was wind on this thing --

24 (b) (6) Oh, my God.

25 **ANGELES OPERATIONS:** -- you know.

1 (b) (6) We'd been back -- we'd all been back one -- one
2 day.

3 **ANGELES OPERATIONS:** Yeah.

4 (b) (6) All that driving Monday.

5 **ANGELES OPERATIONS:** Yeah. And it --

6 (b) (6) (Inaudible) and it would ruin, like -- I -- I grew
7 up in tornadoes and I heard tornadoes that were less than this,
8 but like that whole town's (inaudible) you know.

9 **ANGELES OPERATIONS:** Uh-huh.

10 (b) (6) And it's a perfect day for strong wind right on
11 the line, but -- but what really is amazing to me are -- it's
12 like okay, it's on the top, that's all right. That's workable,
13 you know.

14 **ANGELES OPERATIONS:** Uh-huh.

15 (b) (6) And then all of a sudden, under the -- you know
16 how it has more peaks than valleys?

17 **ANGELES OPERATIONS:** Right.

18 (b) (6) Well, all of a sudden, the whole wall came around
19 it. And it was wall-to-wall fire from the streets to the top
20 of the hills. Just a huge wall. And there was a house that
21 (inaudible) brand newly built with every updated fire
22 (inaudible) about two months ago.

23 **ANGELES OPERATIONS:** Uh-huh.

24 (b) (6) Every updated building code that they request for
25 the buyer --

1 **ANGELES OPERATIONS:** Uh-huh.

2 (b) (6) -- to buy it. And it didn't have one blade of
3 grass around it. It was all very (inaudible) all the way down
4 the side of the hill.

5 **ANGELES OPERATIONS:** Uh-huh.

6 (b) (6) So probably 500 feet, it burned to the ground.

7 **ANGELES OPERATIONS:** Wow.

8 (b) (6) That's how hot it was.

9 **ANGELES OPERATIONS:** Yeah.

10 (b) (6) The heat from the fire just melted the house.

11 **ANGELES OPERATIONS:** Huh.

12 (b) (6) Yeah. Well, it was amazing. It was like a
13 stucco, it's a neat looking thing, with tile on the outside. I
14 mean, it had hardly any windows in it. The windows were small.
15 It wasn't like it was a bunch of big glass windows that were
16 going to break and suck it in, you know?

17 **ANGELES OPERATIONS:** Right.

18 (b) (6) Oh, man. And it is gone, along with my house.
19 And another -- I know of four residences that are gone -- five
20 residences, private residences that are gone. People like to
21 tell me, and I saw the (inaudible) go, you know.

22 **ANGELES OPERATIONS:** Did any make it in there?

23 (b) (6) Well, I'm certainly beginning to wonder. You
24 know --

25 **ANGELES OPERATIONS:** How about the one that with -- with

1 that crazy lady, Canyon -- Canyon (b) (6) ? You know that --

2 (b) (6) (Inaudible.)

3 **ANGELES OPERATIONS:** Do you remember that one that
4 everyone always calls on, the one that's -- the guy moved out
5 and it was -- and it's her -- his ex-wife --

6 (b) (6) Oh, no. Oh, no. Oh, yeah. That's -- oh, man.
7 No. That's gone. She went, yeah. What was she doing? That
8 woman, I think she was on (inaudible).

9 **ANGELES OPERATIONS:** I heard -- I heard more about her
10 story from the people down there that would tell me about it,
11 you know, all the different peculiar weird things with here and
12 I swear, that was unbelievable.

13 (b) (6) (Inaudible.) I never -- they were so far down
14 from me that, you know, they were pretty far up the canyon.
15 Well, two mile up the canyon. But I know exactly who you're
16 talking about.

17 **ANGELES OPERATIONS:** Yeah.

18 (b) (6) No. I think she left. I think she finally left
19 back -- all this hadn't begun, every one of them.

20 **ANGELES OPERATIONS:** Wow.

21 (b) (6) Yeah. Every one of them. I think that they lost
22 30 cabins in Big T alone. And, you know, they can see the map,
23 the brush fires (inaudible) they just got done in April.

24 **ANGELES OPERATIONS:** Uh-huh.

25 (b) (6) At the -- no. At the end of May.

1 **ANGELES OPERATIONS:** Uh-huh.

2 (b) (6) And then they did a huge -- huge -- I don't know
3 how many acres all around the Big T station and all around the
4 cabins, all around all the cabins (inaudible) Canyon.

5 **ANGELES OPERATIONS:** Uh-huh.

6 (b) (6) And all those cabins have been (inaudible) so --

7 **ANGELES OPERATIONS:** Wow.

8 (b) (6) It's just that kind of a thing, you know? Just
9 real different kind of fire. Even though there was no wind, it
10 made so much smoke it just hung over the fire that's been
11 (inaudible) air --

12 ///

13 **c2727_31_08_2009_045504**

14 **ANGELES OPERATIONS:** Right. You know, that's still a
15 problem. There's still a real problem with doing that. I
16 mean, the -- it's so thick with smoke.

17 (b) (6) Yeah. Well, it's taking all (inaudible) the fuel
18 around on the mountain -- it's 40 years old, hasn't burned
19 since, what? 1975, the '75 Mill Fire.

20 **ANGELES OPERATIONS:** Uh-huh.

21 (b) (6) So -- well, the whole city it going to be
22 devastated because just the little I saw driving out of the
23 (inaudible) and they wouldn't even let us go 50 feet
24 (inaudible) down here and then they didn't -- they just let us
25 drive by our house as it was burning. And they wouldn't let us

1 go to the front of the house.

2 **ANGELES OPERATIONS:** Uh-huh.

3 (b) (6) It was all to the ground, every bit of it, down --
4 just down to the ground.

5 **ANGELES OPERATIONS:** Huh.

6 (b) (6) Yeah. And they wouldn't let us go even south
7 of -- to the side of the canyon when the firemen (inaudible)
8 past. And we got a little further up on the mountain, you
9 know, how the (inaudible).

10 **ANGELES OPERATIONS:** Uh-huh.

11 (b) (6) Every phone line, every electrical pole,
12 everything's gone. It'll be months.

13 **ANGELES OPERATIONS:** Yeah.

14 (b) (6) That'll be months.

15 **ANGELES OPERATIONS:** Wow.

16 (b) (6) Yeah. So, I don't know. I don't need my phone
17 (inaudible) get on it. I've got free Internet access here
18 (inaudible) --

19 ///

20 **c2727_31_08_2009_045621**

21 (b) (6) We got one of those extended stay things.

22 **ANGELES OPERATIONS:** Uh-huh.

23 (b) (6) We just finally made it through (inaudible) and
24 they have dinner.

25 And they have -- they -- you can get internet service

1 now for your phone and that's (inaudible) on the phone, and all
2 of that stuff.

3 And getting my husband's medicine and his glasses.
4 And I don't have the nerve to get all this together, but we'll
5 do it.

6 **ANGELES OPERATIONS:** Well, this -- there's -- there's
7 going to be a lot of -- you know, a lot of focus on -- on the
8 support stuff, once --

9 (b) (6) Uh-huh.

10 **ANGELES OPERATIONS:** -- once the -- once the -- no pun
11 intended -- once the smoke settles --

12 (b) (6) Yeah.

13 **ANGELES OPERATIONS:** -- you know.

14 (b) (6) (Inaudible.)

15 **ANGELES OPERATIONS:** You know, I -- I just got a feeling
16 that there's a lot of -- a lot of stuff in the wings that --
17 that have yet to -- that have yet to go into play.

18 But there's -- the -- the situation is so fluid right
19 now that -- that, you know, it -- it -- it -- even if it's
20 organized, it -- there's an element of disorganization about it
21 because the numbers keep changing. The -- the geographic area
22 keeps changing.

23 So the -- there's a constant reinventing different
24 ways of accommodating things and -- and it tends to make
25 everything a bit unsettled.

1 But once -- once this thing gets settled, then, you
2 know, the -- the -- I think they'll -- they'll -- that that
3 whole community front there -- you know, from -- well, from
4 Altadena all the way over to -- well, they say there's --
5 there's fire now going towards Lake Utterance.

6 (b) (6) I'm sure it has been because that would be right
7 in line, yeah.

8 **ANGELES OPERATIONS:** Yeah. So it's --

9 (b) (6) Coming right --

10 You know what it's doing? It's running (inaudible)
11 that's what it's doing.

12 **ANGELES OPERATIONS:** Yeah.

13 (b) (6) They was going to put this fire out on (inaudible)
14 fire to burn last year.

15 **ANGELES OPERATIONS:** Right.

16 (b) (6) It already burned. That's the only thing that's
17 going to put it out because there's nothing else left to burn.

18 **ANGELES OPERATIONS:** And then the other way, it's going to
19 probably run into the Morris Fire.

20 (b) (6) Right. Oh.

21 **ANGELES OPERATIONS:** Yeah.

22 (b) (6) My goodness.

23 **ANGELES OPERATIONS:** If it keeps chugging along the front
24 there --

25 (b) (6) Oh.

1 **ANGELES OPERATIONS:** -- you know.

2 (b) (6) Yeah. And the only thing that's going to stop it
3 is no fuel. And the only where -- there's no fuel is when they
4 had this other fire, so --

5 Yeah. It effectively burned the entire Los Angeles
6 River Water Shed in a few minutes.

7 **ANGELES OPERATIONS:** Huh, yeah.

8 (b) (6) Isn't that terrible?

9 **ANGELES OPERATIONS:** Yeah.

10 (b) (6) (Inaudible) it used to be (inaudible) the
11 (inaudible) district.

12 **ANGELES OPERATIONS:** Uh-huh. I was there then.

13 (b) (6) Yeah. It effectively burned the whole thing.

14 **ANGELES OPERATIONS:** Huh.

15 (b) (6) In (inaudible).

16 **ANGELES OPERATIONS:** Wow.

17 (b) (6) I mean, that's part of fuel reduction, isn't it?

18 **ANGELES OPERATIONS:** Tell me about it.

19 (b) (6) Here come the (inaudible) now. And they're
20 supposed to have it on (inaudible) never stopped (inaudible) --

21 **ANGELES OPERATIONS:** Well, they -- they're -- they're
22 still hemming and hawing about whether -- you know, what that's
23 going to entail for Southern California, though.

24 (b) (6) I --

25 **ANGELES OPERATIONS:** Because if it's a mild -- if it's a

1 mild el nino, it could actually mean no -- no rain again.
2 Because one of the -- like, the drought's been going for three
3 years. And one of those years was a mild el-nino and everyone
4 though, oh, we get a little mild rain.

5 But we -- we -- we didn't get any rain in anyway. So
6 I don't know how that's going to really --

7 (b) (6) (Inaudible.)

8 **ANGELES OPERATIONS:** -- play -- play out --

9 (b) (6) Yeah.

10 **ANGELES OPERATIONS:** -- so --

11 (b) (6) Well, thank you for the update. I've enjoyed
12 knowing you.

13 If it's (inaudible) really soon, I'll call you, but
14 we'll see. We're going to get (inaudible) you know?

15 **ANGELES OPERATIONS:** Well, get on the ball with that as
16 quick -- you know, because if there's more people that are
17 added into the mix, it's just going to draw it out longer.

18 (b) (6) Yeah.

19 **ANGELES OPERATIONS:** And so you want to get -- you want to
20 get your input in there as early as possible --

21 (b) (6) Right.

22 **ANGELES OPERATIONS:** -- you know, just --

23 (b) (6) I'm going to go to the Evacuation Center and see
24 what -- see -- in North County, they have emergency money for
25 things, I know, you know?

1 I know they'll give us emergency food stamps, and
2 stuff like that. You know, they'll do that. So we'll try that
3 and see how it works --

4 **ANGELES OPERATIONS:** Yeah.

5 (b) (6) -- you know?

6 I've helped other people before, but I never really
7 thought about it for myself, so I need to go and just try to
8 walk through it. It's all -- if we walked out to (inaudible)
9 the girls -- explain get a job but (inaudible) over the top of
10 the horse (inaudible) it was horrible. It's horrible. We have
11 to go back for the horse (inaudible) you know.

12 **ANGELES OPERATIONS:** Yeah.

13 (b) (6) It's -- yeah, horrible.

14 **ANGELES OPERATIONS:** Wow.

15 (b) (6) Okay. I'm -- I'm sorry for the firefighters,
16 that's terrible.

17 **ANGELES OPERATIONS:** Yeah.

18 (b) (6) San Bernardino and (inaudible) had 26 years at
19 the --

20 **ANGELES OPERATIONS:** Wow.

21 (b) (6) -- (inaudible). That's horrible.

22 **ANGELES OPERATIONS:** Huh. Wow.

23 (b) (6) Horrible.

24 Well, you take care. And I will call you again with
25 an update, and -- maybe one of these days. We'll be back up in

1 Big T --

2 **ANGELES OPERATIONS:** Do -- do you have the number to
3 the --

4 (b) (6) You mean at the fire place.

5 **ANGELES OPERATIONS:** Well, at the -- at the -- at the
6 supervisor's office, they have a fire info number.

7 (b) (6) I've got that. 821-6700?

8 **ANGELES OPERATIONS:** Yeah.

9 (b) (6) You know what? I -- they don't answer this
10 morning. They're probably trying to close, you know. But I
11 don't know.

12 They're not answering the phone, but, you know,
13 they -- you've got more information than they do. They never
14 did get a fire map to Big T, isn't that terrible?

15 **ANGELES OPERATIONS:** Well, you know, we don't have a
16 fire -- we don't have any fire maps in here either.

17 (b) (6) (Inaudible.)

18 **ANGELES OPERATIONS:** Yeah. I mean, as far as what -- what
19 we could have, there's -- there's -- there's been some problems
20 with communications with -- with our radio systems and, you
21 know, being effected because some of the repeaters, they run on
22 solar power.

23 (b) (6) Uh-huh.

24 **ANGELES OPERATIONS:** So they -- they haven't been able to
25 replace the dead batteries. So some of the mountain tops now

1 are down.

2 (b) (6) Oh, that's what it is. I'm --

3 **ANGELES OPERATIONS:** Yeah.

4 (b) (6) Yeah. (Inaudible.) You know, they kept -- they
5 were the ones that were saying that they were going to get the
6 fire, you know (inaudible).

7 They let it burn for two days down Grizzly Flats and
8 too bad they didn't put it real hard in that would have stopped
9 it, you know, right there, I mean. But who knows. Who knows
10 (inaudible).

11 **ANGELES OPERATIONS:** Yeah.

12 (b) (6) (Inaudible) back of it. I said, "No." I mean, it
13 just all of a sudden -- but they -- we talked to them for six
14 hours and they said it was 20 minutes.

15 **ANGELES OPERATIONS:** Yeah.

16 (b) (6) Yeah. That's quite a difference.

17 **ANGELES OPERATIONS:** Huh.

18 (b) (6) Quite a bit -- yeah. If I came here and get
19 (inaudible) over the top, probably in six hours you probably
20 got six hours, you know.

21 **ANGELES OPERATIONS:** Wow.

22 (b) (6) Okay. Well, so we were getting everything out.
23 And -- then all of a sudden they came and said that they have
24 to (inaudible) and then they came and said, "It's here." And
25 it was, like (inaudible).

1 **ANGELES OPERATIONS:** Wow.

2 (b) (6) Yeah. Oh, yeah. And that was just L.A. that just
3 got into to fuel and it just started sticking and it just went
4 through -- it went through three miles in nothing flat.

5 **ANGELES OPERATIONS:** Huh.

6 (b) (6) Isn't that -- yeah. Isn't that crazy?

7 **ANGELES OPERATIONS:** Wow.

8 **CALLER:** On both -- both sides of 18, both sides.

9 **ANGELES OPERATIONS:** Wow.

10 (b) (6) Yeah. Well, anyway, it's been a wonderful life up
11 there. I've enjoyed (inaudible) of memories.

12 **ANGELES OPERATIONS:** Yeah. I -- I -- I used to live in
13 the forest for 12 years, behind JPL.

14 (b) (6) Oh, you did?

15 **ANGELES OPERATIONS:** Yeah. Off the canyon there, about a
16 mile in there's a report -- there's four forest service
17 residences.

18 (b) (6) Yeah.

19 **ANGELES OPERATIONS:** And it's still there.

20 (b) (6) Is it?

21 **ANGELES OPERATIONS:** Yeah. But, I mean, there's still --
22 but -- but they don't -- you know, it's -- the burning is all
23 around it. But the residences are still in tact.

24 (b) (6) (Inaudible.)

25 **ANGELES OPERATIONS:** And then -- and then there's -- then

1 there's Chantory.

2 (b) (6) (Inaudible.)

3 **ANGELES OPERATIONS:** And Chantory is that is still there,
4 but I don't know because --

5 (b) (6) Did the large canyon make it?

6 **ANGELES OPERATIONS:** The what?

7 (b) (6) (Inaudible.)

8 **ANGELES OPERATIONS:** Well, everyone got out. I don't know
9 if it still exists anymore.

10 (b) (6) Yeah. I don't think so.

11 **ANGELES OPERATIONS:** Yeah.

12 (b) (6) I heard all those cabins burned in there. I
13 imagine all those cabins are gone.

14 **ANGELES OPERATIONS:** I can't see how they -- they -- they
15 wouldn't not be effected.

16 (b) (6) I don't --

17 **ANGELES OPERATIONS:** There's just too much -- there just
18 too right up against it, though.

19 (b) (6) Yeah. And what really got us is (inaudible) when
20 the fire was on the first (inaudible) Pinata.

21 **ANGELES OPERATIONS:** Uh-huh.

22 (b) (6) That (inaudible) Canyon is made for the old
23 bandits back then.

24 **ANGELES OPERATIONS:** Oh, yeah. So is Vallejo.

25 (b) (6) Uh-huh. Yeah, Chileo.

1 **ANGELES OPERATIONS:** Chileo was his -- was his strong arm
2 man. Means --

3 (b) (6) Is that right?

4 **ANGELES OPERATIONS:** -- means hot chili. And he
5 supposedly had a temper. And that's why it's in Chileo and
6 they used to run stolen horses up at Horse Flats, that's where
7 it got its name.

8 (b) (6) That's right. Now, Horse Flats is where?

9 **ANGELES OPERATIONS:** Horse Flats is on the -- on the north
10 side of Montpelier, which is basically the mountain that's
11 right -- nestled right behind -- right above Chileo Ranger
12 Station.

13 (b) (6) Uh-huh.

14 **ANGELES OPERATIONS:** Yeah.

15 (b) (6) (Inaudible.) Yes, I'm on the historic
16 (inaudible).

17 **ANGELES OPERATIONS:** Uh-huh.

18 (b) (6) They used run the -- they used to steal the horses
19 and run them up (inaudible) canyon down (inaudible).

20 **ANGELES OPERATIONS:** Uh-huh.

21 (b) (6) Uh-huh. And buy some of them in trail up in
22 there. That's -- they took some up in Trail Canyon, too.

23 **ANGELES OPERATIONS:** Wow.

24 (b) (6) They still saved money up there. It's old people
25 now.

1 **ANGELES OPERATIONS:** Oh, I've heard stories of -- of a
2 buried -- supposedly buried treasure up there still.

3 (b) (6) Yeah.

4 **ANGELES OPERATIONS:** There's all sorts --

5 (b) (6) Huh?

6 **ANGELES OPERATIONS:** There's all sorts of those old -- old
7 crazy stories.

8 (b) (6) Yeah. I'm sure there's things buried, but I doubt
9 it's treasure. It's probably bodies.

10 **ANGELES OPERATIONS:** Probably.

11 (b) (6) Yeah.

12 **ANGELES OPERATIONS:** Bodies of --

13 (b) (6) (Inaudible.)

14 **ANGELES OPERATIONS:** I was going to say, bodies of people
15 that were looking for this (b) (6) treasure.

16 (b) (6) Yeah. That's right.

17 (b) (6) well, you take care. And thanks for the
18 information.

19 **ANGELES OPERATIONS:** Sure, (b) (6)

20 (b) (6) And I'll -- listen, like I said, thanks for the
21 good job. I mean, nobody knows how hard it is unless they've
22 really been there and, you know, nobody knows how hard it is.
23 Everybody knows how wonderful it is unless they've lived up
24 there and they also don't know how hard it is just to keep it
25 all together like you guys, you know?

1 **ANGELES OPERATIONS:** Well, everybody plays a part in it,
2 you know. And your community was pretty active in being eyes
3 and ears up there.

4 (b) (6) Yeah. We really try, you know. But, you know,
5 well, it's right people just happen to be -- he ran down to the
6 fire, so -- on the 9th of August, my friend and I.

7 **ANGELES OPERATIONS:** Uh-huh.

8 (b) (6) And we got -- and we got a bunch of -- the L.A.
9 County put out a -- a beautiful brochure. Have you seen it?

10 **ANGELES OPERATIONS:** Probably not. I --

11 (b) (6) Ready, Set, Go and it tells you how to -- what to
12 do and an evacuation plan, and all this stuff, and --

13 **ANGELES OPERATIONS:** Uh-huh.

14 (b) (6) -- now we -- on the 9th of August we ran around
15 and gave them to everybody.

16 **ANGELES OPERATIONS:** Huh.

17 (b) (6) So maybe it helped. Who knows. Maybe a few
18 people got out that wouldn't have, you know.

19 **ANGELES OPERATIONS:** Yeah. Yeah.

20 (b) (6) You know, we hope so.

21 **ANGELES OPERATIONS:** Yeah.

22 (b) (6) I sure hope so, but -- well, you just take care
23 now.

24 **ANGELES OPERATIONS:** You too.

25 (b) (6) Don't let them work you too hard.

1 **ANGELES OPERATIONS:** Nah. Well, I'll be working for a
2 while, at least for this one.

3 (b) (6) Yeah. It's going to be what it's going to be,
4 isn't it?

5 **ANGELES OPERATIONS:** Yeah. Well --

6 (b) (6) Nobody's going to (inaudible). Like, my husband
7 said, "Well, it wasn't something that we did or some stupid
8 little" -- he said, "If you're going to go out, go out in a
9 blaze of glory. The biggest fire," you know.

10 **ANGELES OPERATIONS:** Yeah. It's one for the books. It
11 just has a stupid name.

12 (b) (6) Yeah. It's hilarious.

13 **ANGELES OPERATIONS:** You want -- you want a more dramatic
14 name.

15 (b) (6) Yeah. Like I said earlier, at least we went out
16 on the big one. It wasn't something (inaudible).

17 You take care. Be careful.

24 And you said, like, there's no RP. I think it was
25 from Chief 2.

(b) (2) Uh-huh.

1 **ANGELES OPERATIONS:** Okay. Cool. And then I've got

2 Edward --Engine 14 in --

3 **(b) (2)** Hold -- hold -- hold on.

4 **ANGELES OPERATIONS:** Yeah. Yeah. Sure. Sure.

5 **(b) (2)** You're saying "structure group."

6 I mean, I --

7 **ANGELES OPERATIONS:** Yeah.

8 **(b) (2)** -- I don't really know what you're talking about.

9 **ANGELES OPERATIONS:** Okay. What -- what we have going on
10 is we have an incident -- kind of an internal thing here,
11 forest-wise.

12 **(b) (2)** Okay.

13 **ANGELES OPERATIONS:** A structure group with our Type III
14 engines --

15 **(b) (2)** Okay.

16 **ANGELES OPERATIONS:** So I was just trying to get a rundown
17 on which ones are actually that.

18 It appears to me that every engine that's in service
19 available on forest today, not committed to the fire --

20 **(b) (2)** Uh-huh.

21 **ANGELES OPERATIONS:** -- could, and is, part of this
22 structure group, so --

23 **(b) (2)** And who's the -- who's the structure group leader?

24 **ANGELES OPERATIONS:** Well, it's not technically a
25 structure group. And that's why --

1 I'm looking at an incident from a night dispatcher,
2 and he didn't have a damn thing in here. It's just called
3 "structure group." And there's nothing else in here, so --

4 He did mention that Chief 2 was the RP to do that,
5 but it looks like I've got a few engines that are available to
6 be part of the structure group. And one of those is Cannas
7 Engine 77 at Aqua Dulce. And Engine 14, which is down
8 mechanical, of course, at Aqua Dulce. And also, I believe it's
9 Cocoa Engine 24 with Engine 39 and Engine 36, who's at a --

10 (b) (2) (Inaudible.)

11 **ANGELES OPERATIONS:** Disregard --

12 (b) (2) (Inaudible) is a Type VI probably --

13 **ANGELES OPERATIONS:** They are a Type VI. I wondered about
14 that. If they're from the Cocoa, that's for sure.

15 Okay. I'm going to deal with (b) (6) and kind of just
16 brush up on what the hell engines --if we -- because if we get
17 a structure fire on the forest with our stations --

18 (b) (2) Yeah.

19 **ANGELES OPERATIONS:** -- that's what the whole goal is for
20 any forest service structures, that we would, you know, try to
21 be a little proactive on there.

22 (b) (2) Okay.

23 **ANGELES OPERATIONS:** So --

24 (b) (2) Yeah.

25 **ANGELES OPERATIONS:** -- I know --

1 (b) (2) Because I had some different direction this morning

4 MR. (b) (6) Hey. How are you doing? This is (b) (6) (b) (6)

6 ANGELES OPERATIONS: Yes, sir.

7 MR. (b) (6) I am calling about the air tactic above the

8 TFR.

9 ANGELES OPERATIONS: Okay. I need you to speak with
10 aircraft, they have that information.

11 MR. (b) (6) Speak with who?

12 ANGELES OPERATIONS: The individual who is handling

14 MR. (b) (6) Okay.

15 ANGELES OPERATIONS: Okay. Hold on, and I'll transfer you

17 ANGELES OPERATIONS: This is (b) (6)

18 MR. (b) (6) How you doing, (b) (6) This is (b) (6) (b) (6) from

20 ANGELES OPERATIONS: Hello.

21 MR. (b) (6) I've a question about the TFR, the (inaudible)
22 fire (inaudible) fire.

23 ANGELES OPERATIONS: Uh-huh.

24 MR. (b) (6) And the air tactics flying above. I guess
25 he's are flying around at 7,500 but the TFR's at seven.

1 **ANGELES OPERATIONS:** Okay.

2 **MR.** (b) (6) And I was just wondering -- I don't know.
3 Because he's -- he's telling us to -- because the Neuse
4 helicopters are up there, too.

5 And he is trying to tell us to keep those guys out of

7 **ANGELES OPERATIONS:** Uh-huh.

8 **MR.** (b) (6) But those guys aren't doing anything wrong.

9 **ANGELES OPERATIONS:** Okay.

10 **MR.** (b) (6) And we technically can't do, you know --

14 **ANGELES OPERATIONS:** Uh-huh.

15 **MR.** (b) (6) I was wondering if you guys were waiving the
16 TFR, or --

17 **ANGELES OPERATIONS:** No. It's at 7,000.

18 **MR.** (b) (6) Okay.

19 **ANGELES OPERATIONS:** They didn't -- yeah. Okay.

20 **MR.** (b) (6) Because I guess this is --

21 **ANGELES OPERATIONS:** They wanted -- we wanted to raise it,

4 **ANGELES OPERATIONS:** Okay. Well --

5 MR. (b) (6) -- you know, so --

6 **ANGELES OPERATIONS:** -- let me -- let me call the Air Ops
7 and let them know what's going on.

10 them, or --

11 MR. (b) (6) Well, you guys usually, I guess, coordinate

13 **ANGELES OPERATIONS:** Uh-huh.

14 MR. (b) (6) -- I guess. So you can just coordinate
15 through them if they want to raise it, or whatever.

16 **ANGELES OPERATIONS:** Okay.

17 MR. (b) (6) And they'll probably call me.

20 maybe to those persons it -- it could have been considered

9 **CALLER:** So, yeah. (Inaudible) it's just hard -- hard to

12 **ANGELES OPERATIONS:** It's wind-driven. Yep.

13 **CALLER:** So they're pretty spectacular.

14 **ANGELES OPERATIONS:** Yeah. This is -- I've never seen a

16 acres in -- in five days.

17 **CALLER:** (Inaudible) fire did you have?

18 **ANGELES OPERATIONS:** No. The fire started on the 26th,
19 and we're on the 31st.

20 So I think you're looking at, you know -- that's a

19 **CALLER:** Yeah.

20 **ANGELES OPERATIONS:** I strongly suggest that you send that
21 in an e-mail to one of the supervisors.

22 **CALLER:** Well, I'm going to do that.

23 **ANGELES OPERATIONS:** Okay.

24 **CALLER:** I've got to send an email to our staff.

25 **ANGELES OPERATIONS:** Just -- yeah. Because I --

1 **CALLER:** (Inaudible.)

2 **ANGELES OPERATIONS:** I strongly recommend that because
3 that's -- that's the right format we need.

4 **CALLER:** Okay. I'll --

5 **ANGELES OPERATIONS:** Okay.

6 **CALLER:** -- send her an email and copy you guys because
7 (inaudible).

8 **ANGELES OPERATIONS:** Well, we've got another call. We've
9 got a fire, so that's why.

Oh, my gosh. I've got my hands full.

I'll talk to them. Put them on hold.

ANGELES OPERATIONS: Hold on.

///

c2727_31_08_2009_214229

ANGELES OPERATIONS: Edward-12.

CALLER: Yes.

ANGELES OPERATIONS: Do you want the long of it, or the short of it?

CALLER: How about if we need to go to it?

ANGELES OPERATIONS: No.

CALLER: Okay.

ANGELES OPERATIONS: No. They've got it handled.

The short of it is, is that one of the firefighters working a division up there came upon some individuals that they thought law enforcement would be interested in. I --

Oh, law enforcement heard his -- his statement on the radio, and advised -- asked me to contact one-charlie-one --

CALLER: Oh, okay.

ANGELES OPERATIONS: -- and find out what they wanted to do.

One-charlie-one kind of saw it one way. I relayed that way. They gave additional information.

And I had contacted the investigator from the

1 San Bernardino, got a hold of her. I had her on the phone, got
2 one-charlie-one on the phone. They got -- they got together in
3 a pow-wow.

4 And then I gave the instructions to Edward-10 and
5 Edward-19, which they're going to follow up on.

6 And then after that, they're going to get a hold of
7 one-charlie-one and probably get a talk to, or -- I don't know
8 what.

9 **CALLER:** Okay.

10 **ANGELES OPERATIONS:** So --

11 **CALLER:** So are they just taking the individuals down and
12 off the hill, is that it?

13 **ANGELES OPERATIONS:** Well, they're going to do -- they're
14 going to FI them, photograph them, right and left thumb print,
15 all three, and then transport them to a location near a phone.

16 **CALLER:** Oh, okay.

17 **ANGELES OPERATIONS:** And I --

18 **CALLER:** Sounds good.

19 **ANGELES OPERATIONS:** -- and, I suspect, maybe see if, at
20 the phone booth, maybe somebody might come to pick them up.
21 That's a --

22 **CALLER:** Yeah.

23 **ANGELES OPERATIONS:** -- possibility.

24 **CALLER:** Where -- where -- where were they found at?

25 **ANGELES OPERATIONS:** (Inaudible) Box.

1 **CALLER:** Oh, okay.

2 All right. Thanks.

3 **ANGELES OPERATIONS:** All right. Bye.

4 **CALLER:** Okay. Bye.

5 **ANGELES OPERATIONS:** Oh, unless you want to say something
6 else.

7 **CALLER:** No, we're (inaudible).

8 **ANGELES OPERATIONS:** Oh.

9 ///

10 **c2727_31_08_2009_215603**

2 going to be able to do that tonight. Maybe you can do that
3 tomorrow.

4 **CALLER:** Okay. Tomorrow, who do I talk to, do you know?

5 **ANGELES OPERATIONS:** You could contact --

6 Agent (b) (6) this guy is calling to try to get on
7 the -- the E -- you know, the emergency equipment rental
8 agreement.

9 **AGENT** (b) (6) Just have them call the supervisor's office

24 the name. I'm just telling you the contracting person.

25 **CALLER:** Got that. Okay.

1 **ANGELES OPERATIONS:** Okay.

3 morning --

4 **ANGELES OPERATIONS:** Yeah.

5 **CALLER:** -- myself --

6 **ANGELES OPERATIONS:** Because you don't have an agreement
7 already; right?

8 **CALLER:** No. And --

9 **ANGELES OPERATIONS:** So you want to --

10 **CALLER:** -- (inaudible).

11 **ANGELES OPERATIONS:** -- you want to establish one; right?

12 **CALLER:** Correct.

13 **ANGELES OPERATIONS:** Okay.

14 **CALLER:** Correct.

15 **ANGELES OPERATIONS:** So, yeah. And -- yeah. I don't know
16 how quick they're going to be able to do it, but, you know, you
17 can -- it doesn't -- it doesn't hurt to ask.

18 And I'm trying to --

19 **AGENT** (b) (6) Tell her (b) (6) (b) (6)

20 **ANGELES OPERATIONS:** (b) (6) (b) (6) is her name.

21 **CALLER:** Oh, (b) (6) (b) (6) (b) (6)

22 **ANGELES OPERATIONS:** (b) (6) (b) (6)

23 **CALLER:** (b) (6) (b) (6)

18 **ANGELES OPERATIONS:** What?

19 **CALLER:** Have they been (inaudible) dozers and stuff like
20 that? Because I've seen a couple of guys (inaudible).

21 **ANGELES OPERATIONS:** Yeah. They've -- they've been
22 contacting, you know, all types of equipment. They do it for
23 any fire that they need, any type of equipment that they need.
