00:00:30 Yea try again one more time Bob.
00:00:34 For right now I would not let any additional resources up the Crest until this thing is slowed down a little bit and secondly you're going to have to be looking at structure protection resources for the Angeles Crest station.

00:00:10 How many fixed wing do we have assigned to the station?

00:00:15 Trying to get that information from Angeles and I haven't got it yet. I just request whatever was assigned to get started in this direction. I was thinking at least minimum of four.

00:00:31 OK and your priority there would be south end of this correct.

00:00:39 Affirmative we're got the type one helicopter working it now, but quite a ways behind it. Pretty well established, a little bit of spotting going on. Think it's going to run pretty hard to the ridge so we might be able to do something with it here if we're not smoked in.

00:00:54 OK I'm going to try to. I don't know if there's any dozers assigned or anything see if we can get some dozers maybe in on that upper ridge. It looks like we can access that across here.

00:01:06 Yea there's pretty good ridge that. Yea that would probably work just being out in front of that thing.

00:01:16 I understand that. I don't even know if there's any assigned yet. I'll see if I can get you. How many heli tankers, you're wanting at least four correct.

c1212_27_08_2009_113205

00:00:00 Had a little problem with my radio. Hey things are fairly static here. It's making a run up the middle up in the west side of division A here we got pretty good retard up there, but we're watching it.

c1212_27_08_2009_113227

00:00:00 Yes it's just flanking we put a little bit of check line out there. We do have retardant out to the south where that trail comes up out of the fire station and gets up to the main ridge which we'll probably freshen up here as we go on through the day.

c1212_27_08_2009_113252

00:00:00 Lined out the check line about I don't know about two hundred yards or so off the western ridge. Everything below that towards the highway, that's all open line, but it's really not doing, I mean it's active, but it's not going to making any major runs at least for a little while.

c1212_27_08_2009_113320

00:00:00 Depending upon what time air attack gets here we might just, if we have enough fuel, we might zap out a quick bath. We're probably going to have to go into Burbank for fuel, but we'll have something for you later this afternoon.

00:00:08 Go ahead Mike.

00:00:11 Quick update we were able to grab some anchor below the road, working from the south to the north break. Got folks up on top on alpha with two goff crews from the county and Geronimo hot shots. They got some boys able to get in here and grab anchor so they're working the edge trying to build both ways at this time break. Got the dozers they opened up CCC ridge now they're working up towards Lukens from the east to the west. Now the sergeants coming off the top they're going to be swinging it down beneath alpha and Zulu tying it into CCC ridge copy.
c1212_27_08_2009_160653

00:00:00 IC trainee you copy.

00:00:04 You have a bite on this thing on both the north ends.

00:00:18 Copy Mike.

00:00:21 Do we have anymore crews available?

00:00:24 BT is in staging.

00:00:31 You said BT is in staging?

00:00:33 That's affirmative, but we're planning on using them for day shift, but you can have them for a couple of hours if that would help you out.

00:00:43 Maybe you can send the other crew coming up stage at the Crest and send the sup up tie in and see what he thinks.

00:00:53 Copy Mike we'll have sup tie in with you.

00:01:00 Come up on tac two please.

00:00:00 Operations or station IC trainee division Zulu on command tone eight.

00:00:08 Go ahead Mike.

00:00:10 Hey we got four crews below the road working Zulu. Some of that ground we're finding as they get boots on ground not workable we do have roadways established in a couple points in there. What we're going to do is work it until it gets dark try to get everything we can anchored and try and pull everyone out before it gets dark due to the steepness in the ground in there.

00:00:34 Affirmative Mike [static].

00:00:36 Also that will give us something anchored for tomorrow. Be a little bit anyway it should be a fairly decent toehold. They got the dozers working over there. We're securing that we're putting line around that plantation copy.

00:00:51 Affirmative.

00:00:54 And then they're going to look at doing whatever they can on the east side of Lukens here whatever they can do feasibly.

00:01:04 Copy Mike.

c1212_27_08_2009_173013

c1212_27_08_2009_173101

00:00:00 Go ahead Matt.

00:00:03 Mike I've tried tac one and two and no luck.

00:00:08 OK copy we'll have to run everything through you folks on command then.

00:00:14 Sorry Mike.

00:00:17 It's alright. Then you aware what's going on up there, on the alpha on top.

00:00:22 As far as the lima strike team not being able to do much without the type ones that should be tracking that way.

00:00:30 Yea affirmative there is a toehold up top though. We got two LA county goff strike teams and Geronimo up, they're able to get some work in there and grab some anchor in a couple of places.

00:00:43 Yea it sounds like we might be able to get some stuff done up top there tonight with that county strike team and whatever else we got until we can [static] or what not.

00:00:53 Yea once we get that county strike team in we need to get them working towards the east on that Lukens ridge and tie it back into the two. Since we can get those off shore [static] the night time ones we normally get.

00:01:08 Affirmative Mike it's my understanding that they might have loaded there at the Crest already and might be tracking now.

00:01:16 Alright I'll work with alpha on that thanks.

00:00:04 I got you loud and clear now Mike.

00:00:07 I got a down slope coming up at shoved a bunch of spots down below the road to the south we got probably a good fifteen acres at this time well established.

00:00:19 And that's the south side below everything that you guys have anchored there?

00:00:27 Affirmative.

00:00:28 I copy does it look like you can do anything with it Mike? I know you lost all your aircraft.

00:00:36 [static] It's burning way too hot.

00:00:38 Copy Mike.

00:00:42 So it's probably going to back end underneath the power lines so might want to give Edison a heads up.

00:00:08 Yea can you confirm some info. Is there going to be a briefing for the night crew all set up here at the Crest station?

00:00:17 Affirmative Bob let me get back to you with a time.

00:00:22 OK Matt my only concern is we have a lot of equipment staged up there right now we're going to be getting into some activity here at the Crest station with some fire backing down off a ridge here. Did he appoint a structure group supervisor is that still kind of going to be myself and Johnson?

00:00:43 Bob I think for right now [static].

00:00:48 OK Matt what I'd like to do if you guys are ok with it is I want to, there's a lot of put together the troops for the structure protection on the Crest station and relocate this staging area down, down there on the lower part of the Crest maybe the large turnouts or something like that.

00:01:08 Bob [static].

00:01:12 Repeat your last.

00:01:13 [static] Bob

00:01:18 OK let me get with my staging area manager and start moving equipment down out of the Crest station.

00:00:26 OK I copy that break are you in communications with division alpha alpha on top?

00:00:35 Division Zulu contacted them about five ago.

00:00:40 OK he's aware of the activity on lower Lukens road?

00:00:46 Yea affirmative he told him about the spot fires below the Crest highway and all the activity above it that's heading up hill through alpha.

00:00:57 OK copy that yea there's a slop over on the lower end of the switchbacks of Lukens which was his access up to where he's at up on top. Just wanted to make sure they're aware of that may have a good place.

00:00:36 Go ahead sir.

00:00:38 How about tac three for structure group that's assigned to bravo right now, not much activity there.

00:00:46 OK all the structure folks have been briefed they're engaged on tac one right now. If that's ok with everyone I'd like them to stay with it.

00:00:57 How many folk you got there in the structure group?

00:01:02 I got two type three engines, two water tenders, and one hand crew right now.

00:01:11 OK yea I just don't want to impact the operation up on alpha.

00:01:17 I understand. Is that what alpha is using?

00:01:21 Affirmative tac one.

00:01:26 OK I copy the folks down here haven't heard any alpha at all today which means we'll be good. Also they're aware of what's going on in the lower portion of Lukens road here at the Crest station.

00:01:41 Affirmative alpha is in the loop on their egress out Lukens they'll be heading out earl if they have to, but they're still working the dozer line up on top.

00:00:16 Bobby can you let me know can you give me an update on what's going on, on the south end?

00:00:22 Yea affirm that last ridge just to the north of the Crest station is sloped over there it's running it's running kind of the south and west across the lower end of the start for the Lukens road start there with the switchback. And it's coming down into the Crest station we're getting the Crest station proper there ready to clip.

00:00:49 OK Bob. Bob do you know is it over the Lukens ridge?

00:00:55 At this time negative [static]. Just to the north one last drainage before that Lukens ridge.

00:01:06 OK and up on top they're still pushing dozers so it hasn't come over that ridge where they're pushing the dozers correct.

00:01:13 That's correct just working on confirmation that they're [static] all resources are in the loop with what we got. It's got a pretty good steam enough potential to kind of wrap around the east side there.

00:01:31 I understand you're trying to make sure those guys are safe before you [static] or take any other action.

00:01:38 Affirm. We still got a little time in here on the Crest the way it's turning around I think it's going to back in easy like on both sides. So we look pretty good at the Crest. Are you coming up the Crest highway JT?

00:01:51 No but I may here shortly. I'm still trying to help with tonight and tomorrow's plan.

00:01:58 OK I understand we got a pretty good handle I just wanted to make sure we're in the loop with the folks local divisions in there.

00:02:10 OK Bob did you ever make contact with the night ops?

00:02:13 Affirm he's cut off above me in the Crest highway can't get through.

00:02:22 OK I copy Bob I hate to do this to you, but you know you're going to have a shift change coming up here shortly.

00:02:30 Yea affirm I understand I'm trying to move everything non essential out of the staging area into a new staging area to help clean things up here a little bit.

00:02:42 OK understand.

00:00:05 Hey Jim.

00:00:08 Bobby did you put the night crews to work we need to know this here.

00:00:14 Negative we have Elk mountain just staging there at the Crest station.

00:00:22 OK yea copy.

00:00:26 It's going to be for assignments ready available there the only thing we didn't clear out other than the two strike teams.

00:00:34 OK copy.

00:00:38 Also Jim you got the recommendation for moving the closure lower down the Crest either Starlight or something lower.

00:00:47 That's affirmative. I'm not sure which LEOs you got, but if you're close down there by that gate let's just close it off and get those lookie-loos out of there.

00:00:57 OK the closure is at the gate now. If you're ok with it I'll tie in with the sheriff and make the request to move the closure further down the Crest.

00:01:06 I copy I'm going to send Edward fourteen your way.

00:00:14 Yea I'm going to come down Earl canyon so it might be extended. Are you still at Crest?

00:00:21 That's affirm I have day ops here from the county and Forest Service we just need to tie in with them.

c1212_27_08_2009_195441

00:00:00 I copy. What's the plan for the relief up here on alpha with the two Charlie strike teams?

00:00:13 Give me some numbers. What's the numbers?

c1212_27_08_2009_195507

00:00:00 Fifteen twenty-one and twelve forty-one Charlie.

00:00:06 They're going to be committed tonight. We're going to use them tonight on alpha.

00:00:13 OK yea I'd kind of like to get Geronimo hot shots out of here. He's division alpha and although by pulling these folks off up here we're not going to have any forces at all to hold this dozer line.

00:00:31 Yea Ken I'm working right now with Mike Elder and I'm thinking about putting Elk Mountain up there on division alpha.

00:00:41 OK yea that's what it's going to take to hold this dozer line at least one crew.

00:00:49 OK yea Elk Mountain sup and Bear Divide sup they're doing a face to face right now so they'll probably be committed in alpha.

00:01:01 OK yea [static] Zulu the Geronimo sup is alpha.

00:01:11 OK I copy yes Mike is going to transit in with Elk Mountain and with Zulu sorry about that.

00:01:18 OK yea we need to get somebody tied in up here with Geronimo.

00:00:21 OK yea Cal trans is running their truck up and down the road knocking those rocks off. There are a couple units below the gate down on the south end of the Crest highway if you can make contact.

00:00:42 OK yea also that's where the fires coming up form below the road. I'll see what I can do.

00:00:51 OK so right now one lane is blocked?

00:00:55 Uphill lane is completely blocked and the partial blockage of the other lane. You can get a pickup through or an engine barely, but that division that's above us they're planning to stay up there right, that's probably the safest place.

00:01:14 Yea and if they have to they can go out Earl Canyon.
