00:00:00 Copy engine nineteen Captain plus four.
c909_31_08_2009_065104
00:00:00 Captain twelve battalion eleven.
c909_31_08_2009_065127
00:00:00 Angeles battalion eleven.
00:00:04 Battalion eleven Angeles.
00:00:08 Good morning did engine fourteen come on the air yet this morning?
c909_31_08_2009_065153
00:00:00 Battalion eleven confirming division fourteen.
00:00:05 I'm inquiring. Is engine fourteen in service yet this morning?
00:00:11 That's negative we have not heard from him yet.
00:00:17 Ok I copy that. I'd like to order up a mechanic for engine fourteen for an airline problem. I don't have that door number on hand but I can get it for you here in a bit. I'd like the mechanic to report to Agua Dulce station for 0930 at Agua Dulce station.
00:00:39 I copy. What's the nature of the problem again?

00:00:44 The leak in an airline. I'll have Captain fourteen give more specific details, but it's an airline.

00:00:54 I copy. I'll notify him.

00:00:58 Copy. Captain eleven battalion eleven.

00:01:05 Battalion eleven go for Captain twelve.

00:01:11 Can you see if Captain twelve can meet me at Little T at 1000 hours?

00:01:25 [static] Bob, D

00:01:28 I copy when you get back let me know.

00:01:33 Will do.

00:01:36 Battalion eleven chief one.

00:01:39 Go ahead Dave.

00:01:43 Bob we're trying sometime this morning to meet with you and meet with the ranger.

00:01:55 I'll be here at Little T by the training center.

c909_31_08_2009_065401

00:00:00 Bobby what time would be good say around ten?

00:00:09 Yea that's probably fine [static].

c909_31_08_2009_065419

00:00:00 [Static]

00:00:02 [static]

00:00:03 Is that going to hold you up Frank?

00:00:06 Dave you got stepped on repeat.

00:00:11 Available from Valyermo.

00:00:17 That Dave care to repeat your last.

00:00:21 Bobby did Captain eighteen reach with you last night?

00:00:27 Yea affirmative I talked to him this morning.

c909_31_08_2009_065500

00:00:00 Captain thirteen battalion eleven.

00:00:00 Engine thirty-one.

00:00:03 George I'll be available area four. I'll be at Oak Flats station.

c909_31_08_2009_085845

00:00:00 Copy battalion thirty-one.

c909_31_08_2009_085933

00:00:00 Battalion eleven battalion thirty-one tone six.

c909_31_08_2009_085956

00:00:00 [Static]

c909_31_08_2009_090013

00:00:00 Angeles battalion thirty-one can you raise battalion eleven and ask him to give me a phone call on my cell when he gets a chance?

c909_31_08_2009_090036

00:00:00 Battalion thirty-one confirming battalion eleven.

00:00:04 Affirmative if he can give me a call on my cell when he gets a chance.

00:00:10 I copy I'll relay that.

c909_31_08_2009_090058

00:00:00 Battalion eleven Angeles.

c909_31_08_2009_090130

00:00:00 Battalion thirty-one Angeles.

00:00:04 Go ahead.

00:00:06 From battalion eleven he's at the training center extension two three seven. He's unable to get on the air.

00:00:14 Two three seven I got it.

00:00:18 Affirm.

c909_31_08_2009_090248

00:00:00 Angeles engine eleven is in route to area twenty Agua Dulce.

c909_31_08_2009_090257

00:00:00 To area twenty I didn't copy.

00:00:04 Angeles that'd be engine eleven.

00:00:09 Copy engine eleven area twenty.

c909_31_08_2009_090319

00:00:00 [Static]

c909_31_08_2009_090611

00:00:00 Battalion thirty-one.

00:00:05 Go for battalion thirty-one.

c909_31_08_2009_090627

00:00:00 Angeles battalion thirty-one.
00:00:06 Thirty-one are you copying Angeles?
00:00:10 Affirmative you're a little scratchy but I can copy.
00:00:17 Battalion thirty-one how's this?
00:00:21 It's better.
00:00:26 Do you have traffic?
00:00:29 No I thought you were calling me. Also though I tried calling battalion eleven and he didn't answer.

c909_31_08_2009_090712
00:00:00 Angeles engine nineteen tone seven.
00:00:04 Engine nineteen.

c909_31_08_2009_090730
00:00:00 Engine nineteen Angeles.
00:00:04 I copy Angeles
00:00:08 Low volume.

c909_31_08_2009_090748
00:00:00 How do you copy now tone seven?
00:00:05 Better.
00:00:09 I'm trying to make contact with patrol thirteen concerning a lock a combination lock for a building [static] Dillon Divide.

c909_31_08_2009_090813
00:00:00 Copy unit trying to get a hold of patrol thirteen.
00:00:04 That's affirm if he can tie into our crew one at Dillon Divide for a combination lock.
00:00:15 Standby break patrol thirteen Angeles.
00:00:22 Angeles patrol thirteen copies that traffic.
00:00:28 Copy.

c909_31_08_2009_090903

00:00:18 [static]
00:02:36 All stations the morning fire weather forecast for Saturday August 31st. Some mountain locations in Los Angeles County should still experience some single digit humidity readings at times through today. Similar conditions are expected on Tuesday although humidity's should be slightly higher in LA County mountains. An additional slight rise in humidity is expected on Wednesday an upper low level low pressure system will move into the northern California area on Thursday and Friday. With increased on shore flow across the south land. This will in turn lead to a more noticeable cooling trend and higher humidity's. Break.
00:03:16 Continuing today's weather mostly sunny. Max temperature in [unintelligible] elevation ninety-three to one oh two in the valleys. Twenty four hour trend little

change. Today's minimum humidity eight to twelve. Winds in the valleys three to six south to west and ten to fifteen later in the afternoon gusting to thirty. And on the ridges and upper slopes three to six southwest and ten to fifteen miles per hour southwest gusting to thirty. Break.

00:03:53] Continuing red flag warning still in effect until 2100 hours tonight. The low humidities and high temperatures. Again red flag warning still in effect until 2100 hours tonight. Tonight's weather clear sixty-seven to seventy-seven and forty-six to fifty-six degrees in the higher valleys. Maximum humidity's tonight fifteen to twenty-five and twenty-five to forty in the higher valleys. Winds in the valleys north to northeast five to fifteen overnight and [unintelligible] on the ridges and upper slopes becoming north to northeast five to fifteen. Tomorrow's weather max temperatures ninety-one to one oh one and eighty to ninety in the higher elevations and minimum humidity eight to fifteen. Winds out of the northeast five to fifteen then out of the southwest ten to fifteen on the ridges and slopes. Break.

c909_31_08_2009_105754

00:00:00 Angeles repeating the fire weather forecast August 31st 2009. Some mountain locations in Los Angeles County should still experience some single digit humidity readings at times through today. Similar conditions are expected on Tuesday although humidity's should be slightly higher in LA County mountains. An additional slight rise in humidity is expected on Wednesday an upper low level low pressure system will move into the northern California area on Thursday and Friday leading to an increased on shore flow across the south land. This will in turn lead to a more noticeable cooling trend and higher humidity's. The red flag warning still is in effect until today 2100 hours due to low humidity's and hot temperatures. Repeating red flag warning still is in effect until 2100 tonight break.

c909_31_08_2009_105857

00:00:00 Continuing today's weather maximum temperatures ninety-three to one oh two and eight to ninety in the higher elevations. Minimum humidity eight to twelve percent. Today's winds the valleys and lower slopes variable three to six southwest and ten to fifteen later in the afternoon gusting to thirty. And on the ridges and upper slopes variable three to six out of the southwest and ten to fifteen miles per hour out of the southwest gusting to thirty. Break.

00:00:34 Tonight's weather clear sixty-seven to seventy-seven and forty-six to fifty-six degrees in the higher valleys. Maximum humidity's tonight fifteen to twenty-five and twenty-five to forty in the higher valleys. Tonight's winds in the valleys north to northeast five to fifteen overnight and on the ridges and upper slopes becoming north to northeast five to fifteen overnight. Tuesday weather maximum

temperature ninety-one to one oh one and eighty to ninety in the higher elevations. Tuesday's minimum humidity eight to fifteen. Winds five to fifteen miles per hour northeast in the morning in the valleys and the ridges. And becoming ten to fifteen miles per hour gusting to thirty on ridges and slopes this evening. Correction that was for Tuesday evening.

00:00:03 I'll be changing location to station ICP.

00:00:11 Station two I copied station ICP at 1300.

00:00:19 Division two copy available by cell is that still current?

00:00:27 We'll be on delayed response battalion twenty-one off the district.

00:00:32 I copy thirteen zulu.

00:00:39 [static]

c909_31_08_2009_124811

00:00:00 Engine crew sixteen Angeles on forest net go ahead.

00:00:04 Please advise Captain sixteen and division seven that the crew has crossed panorama point looking out towards the west the fire is not hooked around from Mount Hilliard that's clear area and visibility is panorama.

c909_31_08_2009_124846

00:00:00 Engine crew sixteen I copied relay to Captain sixteen confirming the information's correct. You've made it past Panorama Point and looking to the west the fire has not hooked around Mount Hilliard with decent visibility around Panorama. Is that correct?

00:00:20 That's affirmative Chris all the way out to the desert.

c909_31_08_2009_124914

00:00:00 Bravo copy crew you said visibility around panorama point through to the desert 1313.

c909_31_08_2009_124928

00:00:00 Crew sixteen how many POVs are you in?

00:00:08 Chris it's going to be myself plus three there's a total of four POVs.

c909_31_08_2009_124948

00:00:00 Thirteen [static]

00:00:05 Sixteen did you copy that traffic with crew sixteen?

00:00:10 Affirmative and also advise engineer sixteen they have ordered us out as well and we're going to take care of a few more things and we'll be leaving.

c909_31_08_2009_125016

00:00:00 Sixteen I covered their traffic and I didn't copy all of your message all the way. Relay to your one six that they have an assignment.

00:00:12 Negative we've been ordered to evacuate division seven and myself Captain sixteen we'll finalize a few things and we'll be headed out as well.

00:00:27 Sixteen I copy yourself and division seven and the [static] is you have been ordered you're finalizing your equipment and will be heading out I copy at thirteen [static].

00:00:00 [static]

00:00:21 Continuing with the weather. Afternoon sea breezes will bring some gusty winds to the coast below the path of [inaudible] Canyons and Santa Ana range. And to the coastal slopes and foothills this early evening. The strongest winds will be through Malibu Canyon and along the foothills of the San Gabriel mountains with winds fifteen to twenty miles per hour will gust to thirty miles per hour is possible. On shore wind will diminish over night with some local off shore winds by early Tuesday morning. Look for the onshore flow to return by Tuesday afternoon. Very little change is expected through mid week with continued heat and very low humidity conditions expected to continue. The only relief in these conditions will be found along the immediate coast. An upper level low pressure system will move into northern California on Thursday and Friday leading to onshore flow increased across the south land. This will in turn lead to cooler temperatures, higher humidity's and gusty on shore winds in the valleys and desert break.

c909_31_08_2009_162532

00:00:00 Tonight's weather minimum temperature sixty-five to seventy-five and fifty-five to sixty-five in the lower areas. Maximum humidity's tonight thirty to forty percent in the lower elevation and in the higher valleys. Tonight's winds southwest ten to fifteen miles per hour with local gusts to twenty-five miles per hour in the evening. And becoming north to northeast five to fifteen miles per hour overnight. And on the ridges southwest ten to fifteen with local gusts to twenty-five in the evenings. Becoming north to northeast five to fifteen overnight. Tuesday weather sunny. Maximum temperature ninety-two to one oh two in lower elevations and eight-two to ninety-two in the higher peaks.
Minimum.

c909_31_08_2009_162714

00:00:00 Temperatures ninety-one to one oh one. And the higher peaks eighty-one to ninety-one. Minimum humidity Wednesday ten to twenty percent along the valley lower slopes winds variable five to ten miles per hour in the morning becoming south to west ten to.

c909_31_08_2009_162845

00:00:00 Activity levels for Little Tujunga, Claremont, Santa Fe dam five, Warm Springs, Whitaker Peak, Clear Creek, San Bark all three, Chilao three, Camp nine five, Big Pines, Valyermo three, [inaudible] and Palmdale five break.

c909_31_08_2009_162916

00:00:00 Project Activity levels area six twenty-four. For Little Tujunga, Claremont and Santa Fe dam EV, Henninger Flats E. All of area six fifty-two between Grass Mountain, Warm Springs, Whitaker all E Edward. For area six-fifty-five Clear Creek E, San Bark EV, Mill Creek no information, Chilao extreme, Camp nine

extreme, Big Pines EV. For area six ninety Valyermo EV, Acton and Palmdale E extreme. And for the predicted average projected activity levels area six twenty-four, six fifty-two, six fifty-five, and six ninety all E Edward.

c909_31_08_2009_163032

00:00:00 Angeles repeating an additional time fire weather forecast for Monday August 31st. An upper ridge over the region has continued the pattern of very hot and dry conditions. Temperatures this afternoon top out over a hundred degrees over the interior portions of the coastal valleys the foothills and in the AV. Along with these triple digit temperatures humidity levels held to less than ten percent at a number of locations both in the AV and San Yerba mountains. Humidity levels are expected to be rebounding over ten percent this evening but recovery will be poor. Red flag warning remains in effect over the foot hills and mountains of L A county. Excluding the Santa Monica mountains. Through nine pm this evening. Expect Tuesday to be slightly warmer and dryer than today. With critical humidity levels returning. At this time it is not expected that red flag conditions on Tuesday will exceed that duration criteria therefore the red flag warning will be allowed to expire at nine pm this evening. Break.

c909_31_08_2009_163137

00:00:00 The afternoon sea breezes will bring some gusty winds to the coast below the path of the canyons and San Anitas range. Into the coastal slopes and foothills through this early evening. The strongest winds will be through the Malibu Canyon and along foothills of the San Gabriel mountains. Where southerly winds of fifteen to twenty miles per hour with gusts to thirty miles per hour will be possible. Onshore winds will diminish over night with some local offshore winds by early Tuesday morning. Look for the onshore flow to return by Tuesday afternoon. Very little change is expected through mid week with continued heat and very low humidity conditions expected to continue. The only relief from these conditions will be found along the immediate coast. An upper level low pressure system will move into northern California on Thursday and Friday leading to increased onshore flow activity across the south land. This will in turn lead to cooler temperatures higher humidity's and gusty on shore winds in the mountains and deserts by Friday. Break.

c909_31_08_2009_163245

00:00:00 Tonight's weather minimum temperature sixty-five to seventy-five and in the higher elevations fifty-five to sixty five. Maximum humidity's thirty to forty percent, twenty to thirty percent I the higher area. Winds southwest ten to fifteen miles per hour with local gusts to twenty-five miles per hour in the evening. And becoming north to northeast five to fifteen miles per hour overnight. Across the ridges and upper slopes southwest ten to fifteen miles per hour with local gusts to

twenty-five miles per hour in the evening. Becoming north to northeast five to fifteen miles per hour overnight. Tuesday weather mostly sunny. Maximum temperatures ninety-two to one oh two in lower elevations and eight-two to ninety-two in the higher elevations. Minimum humidity's Tuesday eight to fifteen percent. Tuesday winds in the valleys lower slopes northeast five to fifteen in the morning. Becoming south to west ten to fifteen with local gusts to thirty miles per hour in the afternoon. Tuesday winds will cross the ridges and upper slope. Northeast five to fifteen in the mornings becoming south to west ten to fifteen miles per hour with local gusts to thirty. Break.
