

Checklist for Proposed Change to a Route and/or Designation

Briefly describe the proposed change to designated routes on the Coeur d'Alene River Ranger District, including the location of the route and rationale for proposing the change. Use route numbers if available. Be prepared to show the location on a map.

Designation (Check One)

- Route currently exists and is a designated road or trail.
- Route currently exists but is not a designated road or trail.
- Route does not currently exist and would require construction.

Current Vehicle Class (Check One)	Proposed Vehicle Class (Check One)
--------------------------------------	---------------------------------------

PLEASE BRING THIS CHECKLIST TO THE MAY 31 PUBLIC MEETING OR SUBMIT IT TO THE COEUR D'ALENE RIVER RANGER DISTRICT, ATTN: TRAVEL PLAN PROJECT

**Coeur d'Alene River Ranger District
Travel Plan 2006
Screening Criteria for Proposed Changes to Existing Routes**

RECREATION

Based on the information presented on the Recreation maps, is the route in an area designated for motorized use?

- Yes, the route is in an area designated for motorized use.
- No, the route is not in an area designated for motorized use.

Based on your knowledge of the area, does the proposed route have sufficient area for a safe parking and unloading of recreational vehicles (applies to proposed motorized trails only)?

- Yes, the proposed route has sufficient area for a safe trailhead.
- No, the proposed route does not have an existing area sufficient for a safe trailhead.

WILDLIFE

Based on the information presented on the Wildlife maps...

...is the route within goshawk, flammulated owl, or fisher habitat?

- Yes, the route is in habitat for these wildlife species..
- No, the route is not in habitat for these wildlife species.

...is the route within a lynx analysis unit (LAU)?

- Yes, the route is in an LAU.
- No, the route is not within an LAU.

...is the route in a wildlife security area?

- Yes, the route is in a wildlife security area.
- No, the route is not in a wildlife security area.

AQUATICS

Based on the information presented on the Aquatics maps...

...is the route located upslope from an Idaho state listed stream that is water quality impaired, (303 (d) listed, for sediment or metals)?

- Yes, the route is upslope from a 303(d) listed water body.
- No, but the route is up slope from a stream that feeds into a 303d water body
- No the route is not near a 303(d) listed water body.

...is the route within approximately 300 feet (the flood plain) of a stream?

- Yes,, approximately _____ miles of the _____-mile route is within about 300 feet of a stream.
- No, the route is not within the flood plain.

...does the route cross sensitive soils (those identified as having high sediment delivery potential or high landslide potential)?

- Yes, approximately _____ miles of the _____-mile route crosses areas of sensitive soils.
- No, the route does not cross sensitive soils.

PLEASE TURN IN THIS FORM AND THE ASSOCIATED PROPOSAL (with any maps) TO THE FOREST SERVICE REPRESENTATIVE AT STATION 7. Thank you!
