

Managing for Biodiversity in Pacific Northwest Forests: Strategies and Opportunities - June 5-7, 2006, Portland, Oregon

About the Conference

This conference explores the social and biological dimensions of managing for biological diversity in forests of the Pacific Northwest, and focuses on providing management tools to meet different biodiversity objectives. On the first day we review important social and ecological concepts that provide the underpinning for understanding biodiversity management. The second day explores a broad array of specific biodiversity management topics such as effects of invasive species, species and community responses to different silvicultural practices, special habitat management (wetlands, riparian areas, oak savannah), and sensitive species management. We close the conference by discussing ongoing biodiversity monitoring efforts in Oregon and Washington, and opportunities for developing partnerships and a regional monitoring framework.

Call for Posters

In addition to presentations, an evening poster session will be available.

Poster abstracts are due May 8, 2006. Topics include monitoring projects, conservation actions, management studies, ongoing research, habitat restoration, habitat modeling, and species conservation plans. For poster submission guidelines and size information go to the conference web site.

Audience

Field foresters and biologists, industrial and governmental managers, small woodland owners, conservation groups, non-governmental organizations, scientists, students and interested publics.

Arrangements

The conference will be held at the Red Lion on the River Hotel in Portland, Oregon. A block of rooms has been reserved at the Red Lion on the River Hotel at special rates for conference participants. The rate for a single/double room is \$98 per night. To make a reservation, call (800) 733-5466 by May 15, 2006. Participants are responsible for their own hotel accommodations.

14.5 CFE SAF Credits, Category 1 Available

Fee and Registration

The early registration fee for the conference is \$125, if you register by May 15, 2006. After May 15, the registration fee will be \$150. The fee includes cost of instruction, handout materials, two lunches, two evening receptions, and refreshments during breaks. Register online at outreach.forestry.oregonstate.edu/biodiversity/
