# Directory of Research Programs and Employees

U.S. Department of Agriculture  
Forest Service  
Pacific Northwest Research Station

## *Station Mission*

Our mission is to develop and deliver knowledge and innovative technology to ensure the Nation's forests are conserved, restored, and made more resilient to climate change, while enhancing water resources and helping rural communities to be sustainable and economically thriving.

Station Director's Office  
Robert Duncan Plaza  
333 SW First Avenue  
Portland, OR 97204  
P.O. Box 3890  
Portland, OR 97208-3890

Phone: (503) 808-2592

Fax: (503) 808-2130

## *October 2010*

The Pacific Northwest Research Station (PNW) is one of eight research units in the USDA Forest Service. The research units collectively conduct the most extensive and productive program of integrated forestry research in the world. The PNW Research Station was established in 1925. The station has its headquarters in Portland, Oregon, and 11 research locations in Alaska, Oregon, and Washington.

# Research Programs

# ECOLOGICAL PROCESS AND FUNCTION

**Program Manager:** Bea Van Horne, Corvallis, Oregon

**Phone:** (541) 750-7357

**E-mail:** bvhorne@fs.fed.us

## Mission

Advance and communicate knowledge of fundamental ecological processes and their interactions at multiple scales, and develop applications of such knowledge that enable improved management of ecosystems and resources.

## About Us

Scientists in the Ecological Process and Function (EPF) Program's five teams work from central Alaska to southern Oregon, from the coast to the interior. We improve understanding of the influences of biophysical environment and natural and human-caused disturbances on fundamental ecological processes and functions. We also identify, assess, and determine the causes of changes in ecosystem attributes, processes, and functions over time.

## Research Areas

*Our work addresses four key research questions:*

- How does the biophysical environment influence the function and properties of ecosystems, ecological communities, species, populations, and organisms?
- What are the potential influences of climate change on ecosystem attributes, patterns, ecological processes, and their interactions?
- How do disturbances influence ecological patterns and processes, and how do disturbances and ecological processes interact to determine the overall function, attributes, and dynamics of ecosystems?
- What are the determinants of ecological status and trends of biota and ecosystems?

**For assistance, contact:** Margaret Hamilton, Program Assistant

**Phone:** (541) 750-7297

# FOCUSED SCIENCE DELIVERY

**Program Manager:** R. James (Jamie) Barbour, Portland, Ore.

**Phone:** (503) 808-2542

**E-mail:** jbarbour01@fs.fed.us

## Mission

Develop and communicate science products that synthesize and integrate existing research knowledge across disciplinary areas and spatial or temporal scales, to proactively inform policy and decisionmaking processes.

## About Us

The Focused Science Delivery (FSD) Program searches for effective ways to make scientific information useful to an increasingly information-weary, media-savvy society. We achieve this by developing and assessing innovative approaches to shaping and sharing information, focusing on long-term collaboration, and continually seeking and addressing critical information gaps. We view practitioner involvement to be essential to facilitating the use of science in land management decisions, and pursue client-driven science delivery processes—from problem framing to synthesis of findings, from tool development to adoption.

## Research Areas

*Our work addresses three key issues:*

- Improve understanding of the role of environmental assessment requirements under the National Environmental Policy Act (NEPA) in Forest Service management.
- Develop landscape models to provide information to support policy decisions regarding the potential impacts of land development on important natural resources.
- Conduct analyses of fire hazard reduction programs and deliver findings on the potential for using biomass from these activities to sustainably produce electricity and jobs.

**For assistance, contact:** Daniel Beshears, Program Assistant

# GOODS, SERVICES, AND VALUES

*Program Manager:* R. James (Jamie) Barbour, Portland, Ore.

*Phone:* (503) 808-2542

*E-mail:* jbarbour01@fs.fed.us

## Mission

Conduct and communicate research to advance understanding of relationships among people and forest and rangeland ecosystems. We examine how the public perceives and values ecological functions, goods, and services and how these factors influence people's use and management of landscapes.

## About Us

Our researchers work from Alaska, Washington, and Oregon with the ultimate goal of improving understanding about the effectiveness, efficiency, and fairness of government policies, management, decision-making processes, and programs. We work toward this goal by helping policymakers, managers, and the public understand the variety of available options in the ways we interact with and manage natural resources.

## Research Areas

*Our work addresses five key issues:*

- Improve knowledge of fundamental social and economic processes and their interactions with the natural environment.
- Examine the roles of policies, programs, and other institutions in interactions between people and natural resources.
- Describe and analyze the implications of changing demographics, socioeconomics, and technology on natural resources and their management.
- Describe the capacity of dynamic landscapes to provide for evolving human wants and needs.
- Conduct and use integrated multidisciplinary research to support development of management approaches that account for interactions among socioeconomic, ecological, and physical factors.

*For assistance, contact:* Daniel Beshears, Program Assistant

*Phone:* (503) 808-3228

*E-mail:* dbeshears@fs.fed.us

# LAND AND WATERSHED MANAGEMENT

*Program Manager:* John A. Laurence, Portland, Oregon

*Phone:* (503) 808-2191

*E-mail:* jalaurence@fs.fed.us

## Mission

Increase understanding of terrestrial, aquatic, and riparian ecosystems and their linkages to inform management and policy options and develop tools to enhance or maintain the production of desired goods and services.

## About Us

The Land and Watershed Management Program conducts research in Alaska, Washington, and Oregon. Our work explores important biological, physical, and social considerations for forest ecosystems and reflects a strong science-management partnership that is vital to addressing society's demands for forest goods and services. Our research spans a number of science topics, including water, air, and soil; resource management and use; wildlife and fish; and inventory, monitoring, and analysis.

## Research Areas

*Our work explores three research areas:*

- Improve knowledge of terrestrial, aquatic, and riparian ecology and their linkages.
- Develop integrated management alternatives to provide desired goods and services.
- Create and refine models, databases, and tools to evaluate management alternatives.

*For assistance, contact:* Jewel Reid, Program Assistant

*Phone:* (503) 808-2069

*E-mail:* jreid01@fs.fed.us

*Team coordinator:* Debby McKee

*Phone:* (541) 750-7298

*E-mail:* dmckee@fs.fed.us

**Phone:** (503) 808-2026

**E-mail:** cepeterson@fs.fed.us

**Deputy Program Manager:** Gretchen E. Nicholas, Portland, Ore.

**Phone:** (503) 808-2034

**E-mail:** gnicholas@fs.fed.us

## Mission

Improve forest and range ecosystems by developing and applying inventory and monitoring methodology to maintain current comprehensive inventories and conduct multiscale assessments of the status, trends, and prospective futures of the region's ecosystems.

## About Us

We have research programs and conduct inventories in Alaska, California, Hawaii, Oregon, Washington, and the Pacific Islands. This program covers the existing Forest Inventory and Analysis program responsibilities and expands beyond it to include the development of techniques and the application of inventory and monitoring information to current and emerging issues.

## Research Areas

*Our work addresses three key research questions:*

- How can we provide decisionmakers with essential information on the status, extent, and characteristics of forests and rangelands in the Pacific region and their change over time?
- How can we increase the efficiency and add value to inventory and monitoring efforts through the development of new tools, techniques, and methodology?
- How can inventory and monitoring data be used to understand the effects of human use, climate, and natural disturbances on forest and rangeland condition?

**For assistance, contact:** Krystal Fleeger, Program Assistant

**Phone:** (503) 808-2068

**E-mail:** kfleeger@fs.fed.us

## Mission

Generate knowledge about the nature, causes, and consequences of large, rapid, or significant changes to ecosystems that potentially threaten societal values. We will use our knowledge to develop and deliver innovative and effective strategies, methods, and tools so people can plan, manage, or mitigate changes and their causes and consequences.

## About Us

Program researchers are based in Alaska, Washington, and Oregon and work to understand how disturbance processes are initiated and progress, what thresholds are associated with ecological consequence, and how human perception of disturbance and ecological consequence affects acceptability.

## Research Areas

*Our work focuses on five questions:*

- How do we characterize and measure the cause, occurrence, extent, and consequences of threatening conditions and people's perceptions of them?
- How do ecological or social processes interact across multiple temporal and spatial scales to create potential threats?
- What thresholds exist in ecosystem dynamics; what are the biological, physical, and social consequences of crossing these thresholds; and how do people perceive and respond to disturbances that are approaching or have crossed their biological or physical thresholds?
- How are ecological patterns and processes managed to reduce the probability, magnitude, and consequences of a threat?
- What is the range of possible future conditions, and what are the uncertainties and tradeoffs associated with them?

*For assistance, contact:* Roxanne Park, Program Assistant

## Mission

Generate and integrate knowledge and information to provide credible prediction, early detection, and quantitative assessment of environmental threats in the Western United States.

## About Us

The Western Wildland Environmental Threat Assessment Center (WWETAC) is in Prineville, Oregon, colocated with the Ochoco National Forest headquarters. A unit of the Pacific Northwest Research Station, WWETAC was created to predict, detect, and assess existing and potential environmental threats to western wildlands. This includes forest threats such as invasive plants, the appearance of invasive insect threats, potential insect outbreaks, and the appearance of new pathogens.

## The Objectives of WWETAC

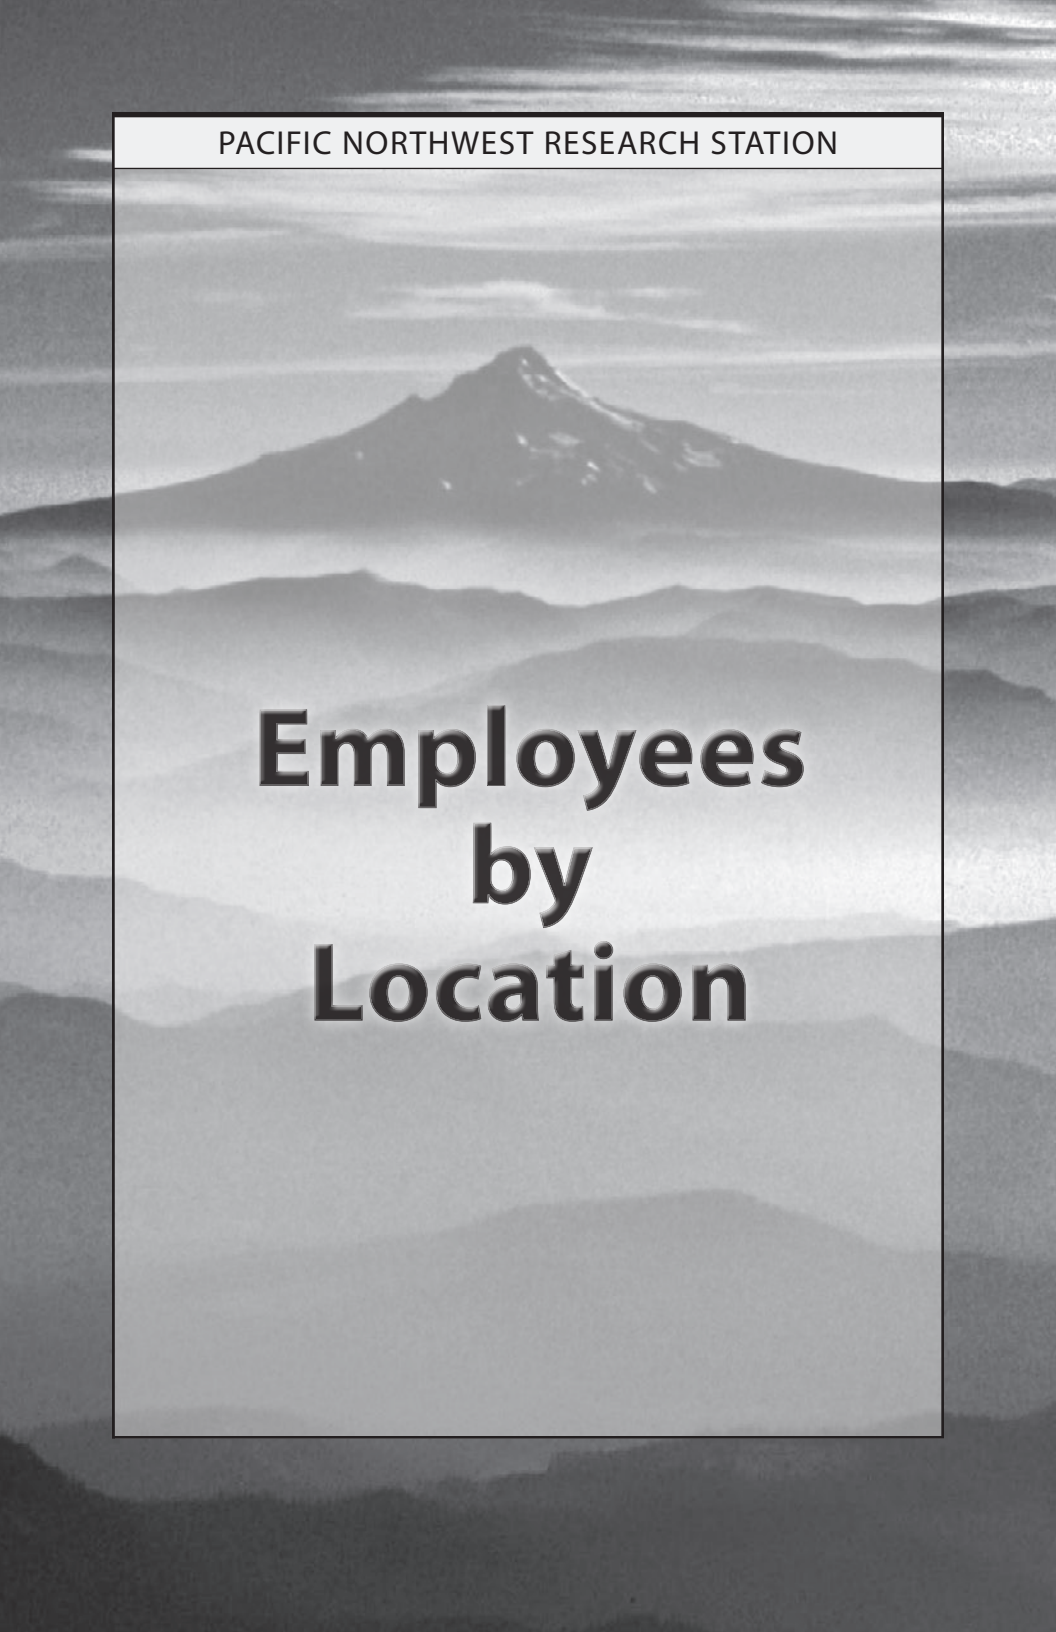

- Evaluate the effects and consequences of multiple, interacting stresses on western wildland health.
- Increase knowledge of the risks, uncertainties, and benefits of multiple environmental stresses on western ecological conditions and socioeconomic values.
- Provide science-based decision-support tools for policy formulation and land management in the Western United States.
- Provide land managers with credible predictions of potential severe disturbances in the West with sufficient warning for managers to take preventive actions.

Waddell, Karen	Forester	503-808-2046
Wanek, Ron	Information Technology Specialist	503-808-2048
Weller, Stacey ( <i>Redding, Calif.</i> )	Forester	530-226-2532
Weyermann, Dale	GIS/Remote Sensing Coordinator	503-808-2042
Williams, Jon	Forester	503-808-3131
Zukauskas, Vilius ( <i>Santa Clara, Calif.</i> )	Ecologist	661-361-0812

## PRINEVILLE

### Western Wildland Environmental Threat Assessment Center

3160 NE 3<sup>rd</sup> Street • Prineville, OR 97754

Telephone: 541-416-6583 • Fax: 541-416-6693

Nancy Grulke	Director	541-416-6583
Ager, Alan	Operation Research Analyst	541-416-6603
Fischer, Paige ( <i>Corvallis</i> )	Research Social Scientist	541-758-7793
Haigler, Judy	Program Assistant	541-416-6618
Shaw, Charles (Terry)	Supervisory Biological Scientist	541-416-6600
Vaillant, Nicole ( <i>Reno, Nev.</i> )	Research Ecologist	541-233-6107

# SEATTLE

## Pacific Wildland Fire Sciences Laboratory

400 N 34<sup>th</sup> St., Suite 201 • Seattle, WA 98103  
Telephone: 206-732-7800 • Fax: 206-732-7801

BARBOUR, Jamie                      Lab Line Officer                      503-808-2542  
(Portland)

### ADMINISTRATION

Allen, William	Support Services Supervisor	206-732-7831
Menorath, Shawn (speaks Laotian and Thai)	Administrative Support Assistant	206-732-7822
Wing, Gina	Information Technology Specialist	206-732-7821

### PNW-2665—GOODS, SERVICES AND VALUES (GSV)

Blahna, Dale	Research Social Scientist; Team Leader, Urban-Wildland Interactions (UWI)	206-732-7833
Cerveney, Lee	Research Social Scientist	206-732-7832
Darzen, Meriel	Social Science Analyst	206-732-7806
Robbins, Alicia	Social Science Analyst	206-240-4658
Styers, Diane	UWI Cooperator	206-732-7840
Wolf, Kathy	UWI Cooperator	206-732-7820

### PNW-2669—RESOURCE MONITORING AND ASSESSMENT (RMA)

McGaughey, Bob	Research Forester; FORSYS Cooperator	206-543-4713
Reutebuch, Steve	Research Forester; FORSYS Cooperator	206-543-4710
Stephens, David	Forester	808-283-1015

### PNW-2677—THREAT CHARACTERIZATION AND MANAGEMENT (TCM)

Alvarado, Ernesto (speaks Portuguese and Spanish)	FERA Cooperator	206-732-7842
Balog, Cameron	FERA Cooperator	206-732-7836
Butler, Courtney	FERA Cooperator	425-283-6711
Cronan, Jim	FERA Cooperator	206-732-7873
Deane, Janelle	FERA Cooperator	206-732-7848
Dvorak, Jon	Forestry Technician	206-732-7869
Eagle, Paige	FERA Cooperator	206-732-7853

# SEATTLE

Freed, Travis	FERA Cooperator	206-732-7854
Grand, Lauren	Forestry Technician	206-732-7818
Halofsky, Jessica (Portland, Ore.)	FERA Cooperator	503-808-2059
Johnson, Morris	Ecologist, FERA	206-732-7852
Kennedy, Maureen	FERA Cooperator	206-732-7810
Krull, Candace	Meteorologist, AIR	206-732-7811
Larkin, Sim	Research Meteorologist, AIR	206-732-7849
McKenzie, Don (speaks Spanish)	Research Biologist, FERA	206-732-7824
Moore, Mark	Meteorologist, AIR NW Avalanche Center	206-732-7807 206-526-6164
Norheim, Robert	FERA Cooperator	206-543-9138
Ottmar, Roger	Research Forester, FERA	206-732-7826
Peterson, David L.	Research Biologist; Team Leader, Fire and Environmental Research Applications (FERA)	206-732-7812
Peterson, Janice	Air Resource Specialist, AIR, R6	206-732-7845
Potter, Brian	Research Meteorologist; Team Leader, Atmospheric Interactions Research (AIR)	206-732-7828
Restaino, Joe	FERA Cooperator	206-732-7886
Rorig, Miriam	Research Meteorologist, AIR	206-732-7843
Sandberg, David	Research Physical Scientist (emeritus)	541-929-5110
Sengsirirak, Aarin	FERA Cooperator	206-732-7868
Solomon, Robert	Research Meteorologist, AIR	206-732-7850
Stavros, Natasha	AIR Cooperator	206-732-7851
Strand, Tara	Air Quality Engineer, AIR	206-732-7867
Sweden, Kjell	FERA Cooperator	206-732-7872
Vihnanek, Bob	Supervisory Forester, FERA	206-732-7829
Vinicio, Marcus	FERA Cooperator	206-732-7813
Wright, Clint	Research Forester, FERA	206-732-7827

## OTHER PERSONNEL LOCATED AT PWFSL

Copstead, Ronald	Research Engineer and Information Resources Specialist (CIO)	206-732-7830
Olson, Diana	RMRS Cooperator	206-732-7844
Steel, Ashley	PNW Statistician	206-732-7823

# SITKA

## Alaska Wood Utilization Research and Development Center

204 Siginaka Way • Sitka, AK 99835-7316

Phone: 907-747-4308 • Fax: 907-747-4294

### PNW-2665—GOODS, SERVICES, AND VALUES (GSV)

Brackley, Allen	Research Forester; Lead, Alaska Wood Utilization Center	907-747-4308
Nicholls, Dave	Research Forest Products Technologist	907-747-4312
Patterson, Trista ( <i>speaks French, Italian, Portuguese, and Spanish</i> )	Research Economist	907-747-4316
Vacant	Science Writer/Editor	907-747-4215

## EXPERIMENTAL FORESTS OF THE PNW RESEARCH STATION

### **Bonanza Creek Experimental Forest and Caribou-Poker Creeks Research Watershed — Fairbanks, Alaska**

*Contact:* Teresa Nettleton Hollingsworth  
*Phone:* 907-474-2424

### **Cascade Head Experimental Forest — Otis, Oregon**

*Contact:* Todd Wilson  
*Phone:* 541-750-7288

### **Entiat Experimental Forest — Wenatchee, Washington**

*Contact:* Rick Woodsmith  
*Phone:* 509-664-1735

### **H.J. Andrews Experimental Forest — Blue River, Oregon**

*Forest Director (Research):* Mark Schulz  
*Phone:* 541-822-6336

*Site Manager (Facilities):* Kathy Keable  
*Phone:* 541-822-6303

*Lead Scientist:* Sherri Johnson  
*Phone:* 541-758-7771

### **Héen Latinee Experimental Forest — Juneau, Alaska**

*Contact:* Richard T. Edwards  
*Phone:* 907-586-8801

### **Maybeso Experimental Forest — Juneau, Alaska**

*Contact:* Mike McClellan  
*Phone:* 907-586-7924

### **Pringle Falls Experimental Forest — Bend, Oregon**

*Contact:* Andy Youngblood  
*Phone:* 541-962-6530

### **South Umpqua Experimental Forest — Tiller, Oregon**

*Contact:* Fred Swanson  
*Phone:* 541-750-7355

### **Starkey Experimental Forest and Range — La Grande, Oregon**

*Contact:* Brian Dick  
*Phone:* 541-962-6539

### **Wind River Experimental Forest — Carson, Washington**

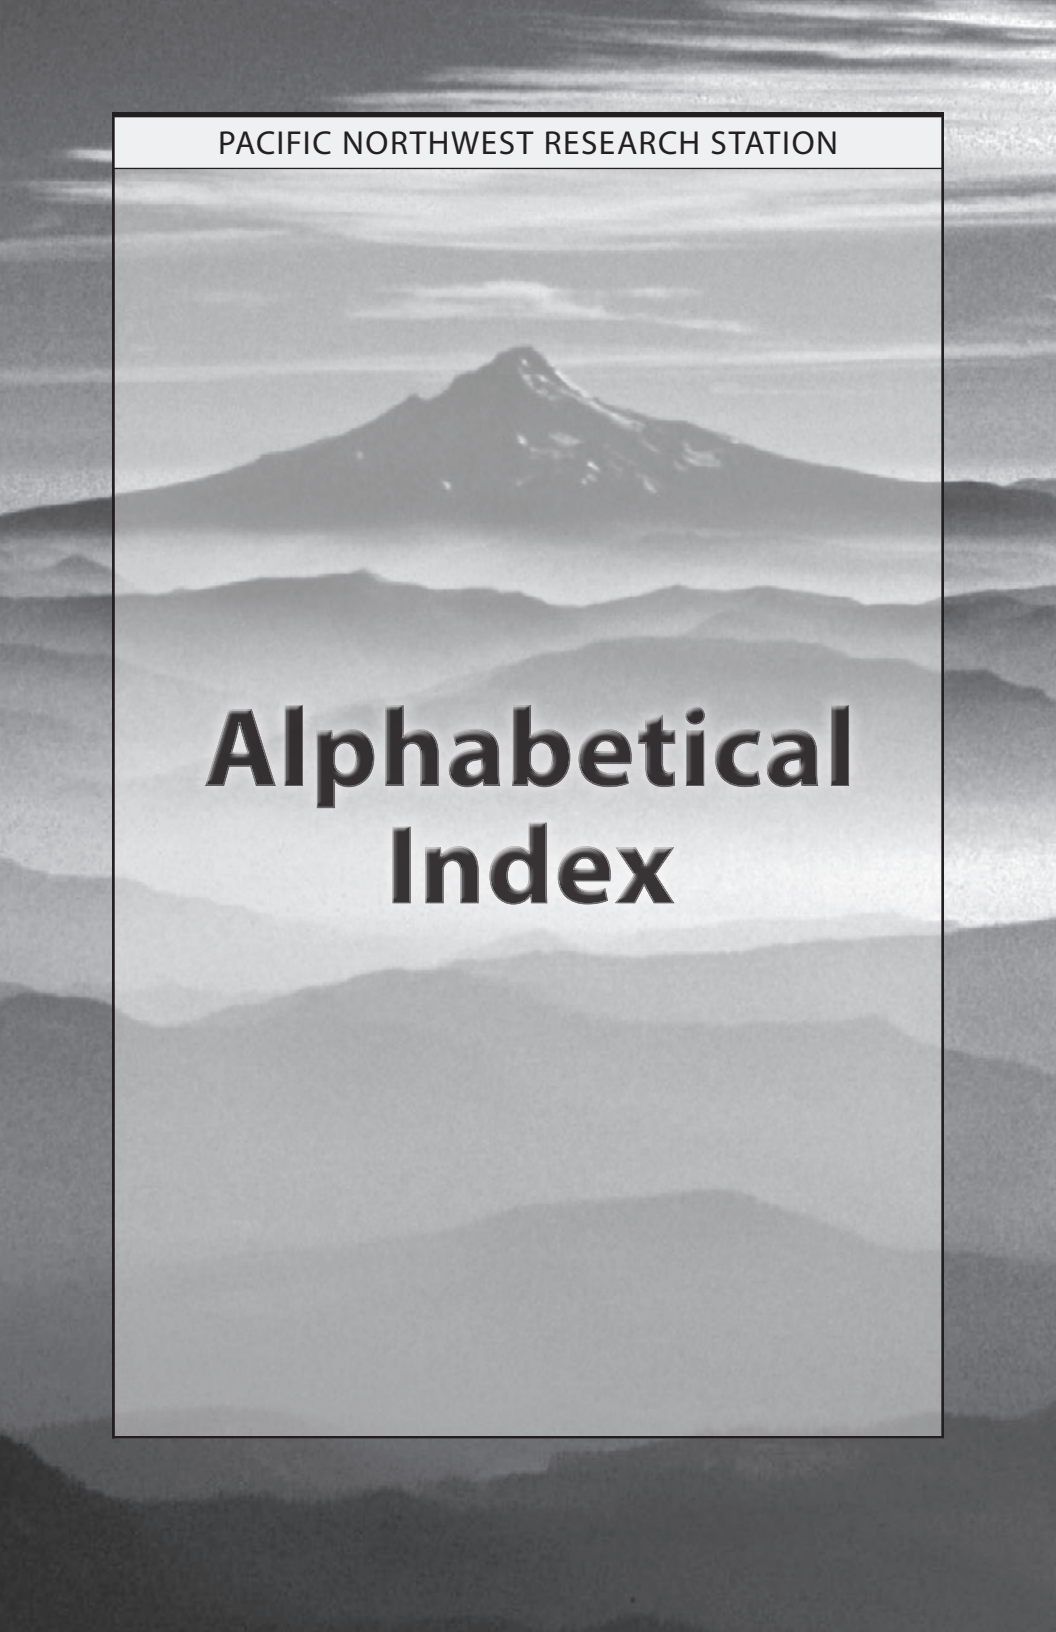

*Contact:* Todd Wilson  
*Phone:* 541-750-7288

*Canopy Crane:* Rick Meinzer, Lead Scientist  
*Phone:* 541-758-7798

# NOTES

---

PACIFIC NORTHWEST RESEARCH STATION

# **Alphabetical Index**

## Locations —

---

- AFSL** — Anchorage Forestry Sciences Laboratory
- AWURDC** — Alaska Wood Utilization Research and Development Center (Sitka)
- BECRU** — Boreal Ecology Cooperative Research Unit (Fairbanks)
- CFSL** — Corvallis Forestry Sciences Laboratory
- JFSL** — Juneau Forestry Sciences Laboratory
- LFSL** — La Grande Forestry and Range Sciences Laboratory
- OFSL** — Olympia Forestry Sciences Laboratory
- PFSL** — Portland Forestry Sciences Laboratory
- PWFSL** — Pacific Wildland Fire Sciences Laboratory (Seattle)
- SDO** — Station Director's Office (Portland)
- WFSL** — Wenatchee Forestry Sciences Laboratory
- WWETAC** — Western Wildland Environmental Threat Assessment Center (Prineville)
