

Development of a BMP Performance Assessment and Data Analysis System for TIIMS

Principal Investigator: Alan Heyvaert

Annual Accomplishments Update (October 1, 2008-September 30, 2009)[†]:

Development of the Tahoe Stormwater and Best Management Practices (BMP) Performance Database is nearly completed for Version 1.0. This will serve as the preliminary data gathering and analysis tool for the Tahoe Regional Stormwater Program. A User Guidelines Manual is also in preparation to provide information about the type and format of data that will need to be reported and to assist the new user with understanding how the database functions.

[†] This document is an intermediate progress report, not a final report; consequently, any results should be considered preliminary and should not be cited. Please contact the principal investigators or the Tahoe SNPLMA Science Program Coordinator if you have questions.
