Contents

In Brief	iii
Acknowledgments	iv
Introduction	1
Location, Access and Accommodations	2
History	3
Historical Data	3
Hydrology	3
Fire.....	4
Logging.....	5
Environment and Climate	5
Soils	7
Vegetation Analysis	10
Methods	10
Results and Discussion	12
Initial Survey Results	12
Vegetation Classification	18
Comparisons and Distributions of Forest Types	21
Comparisons with Existing Classifications of Mixed-Conifer and Red Fir Forests.....	23
Intensive Measurements of Mixed-Conifer and Red Fir Forests	24
Mixed-Conifer Patch Conditions.....	26
Ecological Components of Mixed Conifer	26
Canopy Arthropods	26
Soil and Coarse Woody Debris Microarthropods	28
Breeding Bird Richness and Density.....	31
Snag Survey.....	33
Northern Flying Squirrels and Truffles	33
Lichens	34
