

Proceedings of the Symposium on the Ecology and Management of Dead Wood in Western Forests

November 2-4, 1999

Reno, Nevada

William F. Laudenslayer, Jr., Patrick J. Shea, Bradley E. Valentine, C. Phillip Weatherspoon, and Thomas E. Lisle

Technical Coordinators

Contents

Preface and Acknowledgments	ix
Importance of Dead and Downed Wood.....	1
Dead Wood: From Forester's Bane to Environmental Boon.....	3
<i>Jack Ward Thomas</i>	
Decaying Wood: An Overview of Its Status and Ecology in the United Kingdom and Continental Europe	11
<i>Jill Butler, Keith Alexander, and Ted Green</i>	
Importance to Aquatic Systems.....	21
Dead Wood Dynamics in Stream Ecosystems	23
<i>Robert J. Naiman, Estelle V. Balian, Krista K. Bartz, Robert E. Bilby, and Joshua J. Latterell</i>	
Effects of Wildfire on In-Channel Woody Debris in the Eastern Sierra Nevada, California.....	49
<i>Neil H. Berg, David Azuma, and Ann Carlson</i>	
Influence of Bank Afforestation and Snag Angle-of-fall on Riparian Large Woody Debris Recruitment.....	65
<i>Don C. Bragg and Jeffrey L. Kershner</i>	
Modeling the Delivery of Large Wood to Streams with Light Detection and Ranging (LIDAR) Data	71
<i>William Cody Fleece</i>	
How Much Dead Wood in Stream Channels Is Enough?	85
<i>Thomas E. Lisle</i>	

**Pacific Southwest
Research Station**

USDA Forest Service
General Technical
Report
PSW-GTR-181

August 2002

Importance to Invertebrates.....	95
An Investigation of the Insect Fauna Associated with Coarse Woody Debris of <i>Pinus ponderosa</i> and <i>Abies concolor</i> in Northeastern California	97
<i>Ethan Koenigs, Patrick J. Shea, Robert Borys, and Michael I. Haverty</i>	
A Preliminary Study of Ant Diversity and of Ant Dependence on Dead Wood in Central Interior British Columbia	111
<i>B. Staffan Lindgren and A. M. MacIsaac</i>	
Effects of Ecosystem Restoration Treatments on Cavity-nesting Birds, Their Habitat, and Their Insectivorous Prey in Fire-maintained Forests of Southeastern British Columbia	121
<i>Marlene Machmer</i>	
The Role of Coarse Woody Debris in Southeastern Pine Forests: Preliminary Results from a Large-scale Experiment.....	135
<i>Timothy S. McCay, James L. Hanula, Susan C. Loeb, Steven M. Lohr, James W. McMinn, and Brett D. Wright-Miley</i>	
Girdled versus Bark Beetle-created Ponderosa Pine Snags: Utilization by Cavity-dependent Species and Differences in Decay Rate and Insect Diversity	145
<i>Patrick J. Shea, William F. Laudenslayer, Jr., George Ferrell, and Robert Borys</i>	
The Role of Disturbance in Creating Dead Wood: Insect Defoliation and Tree Mortality in Northeastern Oregon	155
<i>Andrew Youngblood and Boyd E. Wickman</i>	
Importance to Vertebrates	169
The Value of Coarse Woody Debris to Vertebrates in the Pacific Northwest	171
<i>Evelyn L. Bull</i>	
Are There Snags in the System? Comparing Cavity Use among Nesting Birds in “Snag-rich” and “Snag-poor” Eastside Pine Forests	179
<i>Steve Zack, T. Luke George, and William F. Laudenslayer, Jr.</i>	
Distribution Patterns of Birds Associated with Snags in Natural and Managed Eastern Boreal Forests.....	193
<i>Pierre Drapeau, Antoine Nappi, Jean François Giroux, Alain Leduc, and Jean-Pierre Savard</i>	
Habitat Preferences of Primary Cavity Excavators in Washington’s East Cascades	207
<i>Kenneth R. Bevis and Sandra K. Martin</i>	

Cavity-nesting Bird Use of Snags in Eastside Pine Forests of Northeastern California	223
<i>William F. Laudenslayer, Jr.</i>	
Woodpecker Foraging and the Successional Decay of Ponderosa Pine.....	237
<i>Kerry L. Farris, Edward O. Garton, Patricia J. Heglund, Steve Zack, and Patrick J. Shea</i>	
Forest Age and Relative Abundance of Pileated Woodpeckers on Southeastern Vancouver Island	247
<i>Carol L. Hartwig, Donald S. Eastman, and Alton S. Harestad</i>	
The Pileated Woodpecker as a Keystone Habitat Modifier in the Pacific Northwest.....	257
<i>Keith B. Aubry and Catherine M. Raley</i>	
Characteristics and Dynamics of Cavity Nest Trees in Southern British Columbia	275
<i>Christoph Steeger and Jakob A. Dulisse</i>	
How Dead Trees Sustain Live Organisms in Western Forests	291
<i>Fred L. Bunnell, Isabelle Houde, Barb Johnston, and Elke Wind</i>	
Summer and Fall Use of Logging Residue Piles by Female Short-tailed Weasels	319
<i>Kimberly A. Lisgo, Fred L. Bunnell, and Alton S. Harestad</i>	
Dead Wood and the Richness of Small Terrestrial Vertebrates in Southwestern Oregon	331
<i>Chris C. Maguire</i>	
Stag Retention and Use by Arboreal Marsupials in Eucalypt Forests in Southeast Queensland, Australia: Implications for Management	347
<i>Damien Moloney, Kevin Wormington, and Stephen DeStefano</i>	
Importance to Soils and Other Forest Resources	357
Fire as a Coarse Filter for Snags and Logs	359
<i>James K. Agee</i>	
Assemblages of Vascular Plants on Logs and Stumps within 28-year-old Aspen-dominated Boreal Forests	369
<i>Philip Lee and Kelly Sturgess</i>	
The Nutritional Significance of Coarse Woody Debris in Three Rocky Mountain Coniferous Forests.....	381
<i>Cindy E. Prescott and Raija Laiho</i>	

The Effects of Microsite (Logs versus Ground Surface) on the Presence of Forest Floor Biota in a Second-growth Hardwood Forest	393
<i>Charlotte Pyle and Michelle M. Brown</i>	
Demographics and Dynamics of Dead Wood.....	405
Overview of Agents and Patterns of Mortality and Resulting Coarse Woody Debris Recruitment in Western Forests	407
<i>Brytten E. Steed and Michael R. Wagner</i>	
Comparing Deterioration and Ecosystem Function of Decay-resistant and Decay-susceptible Species of Dead Trees	435
<i>Paul E. Hennon, Michael H. McClellan, and Patricia Palkovic</i>	
Influence of Fire on the Dynamics of Dead Woody Material in Forests of California and Southwestern Oregon	445
<i>Carl N. Skinner</i>	
Demographics and Dynamics in Coastal Mesic Forests	455
Simulation of Stream Wood Source Distance for Small Streams in the Western Cascades, Oregon.....	457
<i>Mark A. Meleason, Stanley V. Gregory, and John Bolte</i>	
Standing Dead Tree Dynamics Extracted from Growth and Yield Permanent Sample Plots in British Columbia	467
<i>Jeff Stone, John Parminter, and Joe Braz</i>	
Dead Wood and Fire Relationships in Southwestern Oregon Western Hemlock Forests.....	479
<i>Diane E. White, Thomas Atzet, Patricia A. Martinez, and Lisa A. McCrimmon</i>	
The Number and Composition of Snags in the Pine-Spruce Stands of the Bialowieza National Park, Poland.....	489
<i>Wieslaw Walankiewicz</i>	
Demographics and Dynamics in the Cascades Forests.....	501
A Coarse Wood Dynamics Model for the Western Cascades	503
<i>Kim Mellen and Alan Ager</i>	
Snag Recruitment in Subalpine Forests of the North Cascades, Washington State.....	517
<i>Paul T. Flanagan, Penelope Morgan, and Richard L. Everett</i>	

DecAID: A Decaying Wood Advisory Model for Oregon and Washington	527
<i>Kim Mellen, Bruce G. Marcot, Janet L. Ohmann, Karen L. Waddell, Elizabeth A. Willhite, Bruce B. Hostetler, Susan A. Livingston, and Cay Ogden</i>	
Regional Patterns of Dead Wood in Forested Habitats of Oregon and Washington	535
<i>Janet L. Ohmann and Karen L. Waddell</i>	
The DecAID Advisory Model: Wildlife Component.....	561
<i>Bruce G. Marcot, Kim Mellen, Susan A. Livingston, and Cay Ogden</i>	
Demographics and Dynamics in Sierra Nevada Forests	591
Dead Branches and Other Wildlife Resources on California Black Oak (<i>Quercus kelloggii</i>)	593
<i>Barrett A. Garrison, Robin L. Wachs, Terry A. Giles, and Matthew L. Triggs</i>	
Demography of Snags in Eastside Pine Forests of California	605
<i>F. Michael Landram, William F. Laudenslayer, Jr., Thomas Atzet</i>	
Assessing the Effect of Fire Regime on Coarse Woody Debris.....	621
<i>Pamela Wright, Mark Harmon, and Fred Swanson</i>	
Demographics and Dynamics in Rocky Mountain Forests.....	635
Mortality as a Source of Coarse Woody Debris in Managed Stands.....	637
<i>Carl E. Fiedler and Todd A. Morgan</i>	
Snags and Down Wood in the Interior Columbia Basin Ecosystem Management Project	649
<i>Jerome J. Korol, Miles A. Hemstrom, Wendel J. Hann, and Rebecca A. Gravenmier</i>	
Assessment of the Line Transect Method: An Examination of the Spatial Patterns of Down and Standing Dead Wood	665
<i>Duncan C. Lutes</i>	
Management of Dead Wood	677
Forest Management and the Dead Wood Resource in Ponderosa Pine Forests: Effects on Small Mammals	679
<i>Carol L. Chambers</i>	

Dying and Dead Hardwoods: Their Implications to Management.....	695
<i>Fred L. Bunnell, Elke Wind, and Ralph Wells</i>	
Diameters and Heights of Trees with Cavities: Their Implications to Management.....	717
<i>Fred L. Bunnell, Elke Wind, Mark Boyland, and Isabelle Houde</i>	
How Should We Spatially Distribute Dying and Dead Wood?	739
<i>Fred L. Bunnell, Mark Boyland, and Elke Wind</i>	
Evaluating the Effects of Partial Cutting on Wildlife Trees and Coarse Woody Debris.....	753
<i>Susan K. Stevenson and Dagmar G. Keisker</i>	
Created Snag Monitoring on the Willamette National Forest.....	765
<i>Pat Boleyn, Eric Wold, and Ken Byford</i>	
The Efficacy of Inoculating Fungi into Conifer Trees to Promote Cavity Excavation by Woodpeckers in Managed Forests in Western Washington.....	777
<i>Martin J. Huss, James C. Bednarz, David M. Juliano, and Daniel E. Varland</i>	
Characteristics of Log Resources in Northeastern Oregon: Case Studies of Four Management Treatments	795
<i>Torolf R. Torgersen</i>	
Sampling Methods for Snags and Large Trees Important to Wildlife	811
<i>Lisa J. Bate, Edward O. Garton, and Michael J. Wisdom</i>	
Accuracy and Efficiency of Methods to Sample Logs for Wildlife Research and Management.....	817
<i>Lisa J. Bate, Torolf R. Torgersen, Edward O. Garton, and Michael J. Wisdom</i>	
Effects of Prescribed Fire in Ponderosa Pine on Key Wildlife Habitat Components: Preliminary Results and a Method for Monitoring	823
<i>Tammy Randall-Parker and Richard Miller</i>	
Selection of Fire-created Snags at Two Spatial Scales by Cavity-nesting Birds	835
<i>Victoria Saab, Ree Brannon, Jonathan Dudley, Larry Donohoo, Dave Vanderzanden, Vicky Johnson, and Henry Lachowski</i>	
Dead Tree Management in British Columbia.....	849
<i>Jeff Stone, John Parminter, André Arsenault, Todd Manning, Nancy Densmore, Gerry Davis, and Andy MacKinnon</i>	

British Columbia's Dangerous Tree Assessment Process.....	863
<i>Todd Manning, Peter Bradford, Cary White, David Rowe, Nancy Densmore, and Stewart Guy</i>	
Managing Coarse Woody Debris in British Columbia's Forests: A Cultural Shift for Professional Foresters?	869
<i>André Arsenault</i>	
Water, Wildlife, Recreation, Timber... Coarse Woody Debris?	879
<i>John R. Mount</i>	
Creating and Maintaining Wildlife, Insect, and Fish Habitat Structures in Dead Wood	883
<i>Timothy K. Brown</i>	
Perspectives and Approaches to Management.....	893
An Ecological Functional Basis for Managing Dead Wood Decay Elements for Wildlife	895
<i>Bruce G. Marcot</i>	
A Case Study of Habitat Conservation Plans and the Protection of Snags and Coarse Woody Debris on Industrial Forest Lands	911
<i>Lorin L. Hicks and Henning C. Stabins</i>	
Management of Dead Wood: Perspectives of a State Forestry Agency.....	923
<i>Christopher P. Rowney</i>	
Moving towards a New Paradigm for Woody Detritus Management	929
<i>Mark E. Harmon</i>	
Symposium Synthesis	945
Dead Wood Management Issues and Opportunities: Future Directions.....	947
<i>Ann M. Bartuska</i>
