

Over-snow Vehicle Travel Management Changes

Clearwater NF Travel Plan

RP-304

WHAT THIS REPORT SHOWS

This report highlights selected changes to ROUTE-BASED restrictions that are being analyzed in the Clearwater NF Travel Plan EIS. For Alternatives B, C, and D it shows only routes where the restrictions vary by alternative. ZCOMM shows restrictions common to alternatives B, C, and D. The route changes are shown here to enable an easy comparison to restrictions in the existing condition (the no-action alternative)

WHAT THIS REPORT DOES NOT SHOW

The report does not show the effect of existing or new AREA restrictions to oversnow travel. See the Motorized Winter Use Map for that information. Area restrictions include the Selway Bitterroot Wilderness, The non-motorized areas of Forest Plan Management Area A3 and A2, the proposed forest-wide snowmobile prohibition during the core of big game hunting season from 10/1 to 11/15, existing winter area restrictions at Musselshell, Elk Creek Falls and Sneakfoot Meadows and the proposed restrictions in Forest Plan Management Area B2 (recommended Wilderness).

It also does not show roads where previous lengthier restrictions were replaced by the forest-wide restriction from 10/1 to 11/15.

Also, this report does not show restrictions that have been dropped on most trails to reflect the reality that few trails are distinguishable under deep snow and most do not provide any better travel avenues than could be had by travelling cross-country. Only trails with other proposed restriction changes are displayed.

LEGEND

DISTRICTS	FROM Beginning and ending TO mileposts for the restricted segment.	VEHICLE TYPES
2 - Palouse 3 - North Fork 5 - Lochsa 6 - Powell	SNO	All snowmobiles and other track-driven vehicles designed exclusively for oversnow travel and operated entirely on snow. ATV's with tracks do not meet this definition.
