

# Selway Bitterroot Invasive Plants Management Project Alternative 5

Bio Control - 50,000 Acres  
Total Herbicide Treatment - 4,126 Acres/year

Selway River Camps -  
The symbols for Selway River camps in this map are not intended to be accurate as to geographic location or number. Rather, the symbols are intended to convey that there are a series of river camps along the watercourse which will be included as treatment sites.
