

Cooney McKay Forest Health and Fuels Reduction Project

Final Environmental Impact Statement

**Swan Lake Ranger District, Flathead National Forest
Lake and Missoula Counties, Montana**

Appendix G – Errata

Appendix G

Errata

This errata contains a listing of corrections to the Cooney McKay DEIS and additional information. Bold print indicates a specific correction or an addition in text or data. These changes were reviewed by the Deciding Official prior to the signing of the decision documented in the Record of Decision. The changes were determined to not affect the conclusions presented in the DEIS.

<u>Location</u>	<u>Description of Correction</u>
2-24	Table 2-11 in DEIS, First row under Forest Health should be “ 2,833 acres ” for Alternative 4” instead of 2,883
3-153	The first three sentences of the first paragraph should be deleted and replaced with “ A total of 1.25 miles of new temporary road are proposed and was analyzed within the project. ”
3-160	The third sentence of the third paragraph should read: A BA for action alternatives has been completed and determined “May affect, Likely to Adversely impact bull trout” (Project File Exhibit L-11)
Appendix D	The website listed for the US Geological Survey on page D-13 should be replaced with the following: http://nrmsc.usgs.gov/news/NCDE_overview.pdf .
Appendix D	The following references should be added to the Bibliography: <p>Behnke, R.J. 1992. <u>Native Trout of Western North America</u>. American Fisheries Society Monograph 6.</p> <p>Lenard, S., B.A. Maxell, P. Hendricks, and C. Currier. 2007. Bat Surveys on USFS Northern Region 1 Lands in Montana: 2006. Report to the USDA Forest Service, Northern Region. Montana Natural Heritage Program, Helena, Montana. 23 pp. plus appendices.</p> <p>McIntyre, J.D. and B.E. Rieman. 1995.
