Forest Lifts Emergency Closure in Little Trail Creek/Travertine Area West and North of Gardiner

Gardiner, MT... Effective today, the Gallatin National Forest has lifted an emergency area closure in the Little Trail Creek Trail and Travertine Road area just north and west of Gardiner to address a public safety hazard.

The closure was implemented on September 9 for human-bear safety reasons when a hunter was mauled by a bear and wounded it. Wildlife officials have been monitoring the area and have found a bear carcass believed to be the wounded animal.

For additional information please contact the Gardiner Ranger District at (406) 848-7375.
