

Hyalite Canyon Area Winter Recreation 2008/2009 Season

Bozeman, 5 miles

Plowed Roads and Parking

- Roads Routinely Plowed. Expect road surfaces to be snowpacked and icy. Roads are not sanded nor salted. Use vehicles equipped with good winter tires. Carry traction devices and be prepared to use them. Minimum Winter Speed Limit is 25 mph. Drive defensively. SLOW DOWN!
- Roads Intermittently Plowed. Single lane road, slow down to pass oncoming traffic. Road surfaces are snowpacked and icy. Roads are not sanded nor salted. Traction devices strongly recommended. WATCH FOR SKIERS ON THE ROAD. SLOW DOWN!
- Parking. Designated Parking. Parking Lots may be plowed intermittently. Park in an orderly fashion to maximize capacity. Abandoned cars will be towed at the owners expense.
- No Parking. Parking on plowed roadways is not allowed unless designated on the map with a Parking Symbol.

All other unplowed Roads are Closed to all Vehicles

Winter Trail Opportunities

Trails may be groomed occasionally for snow compaction, refer to Parking Area Bulletin Boards for most recent groomings.

- EASIEST. Easier Trails with relatively little challenge and can be negotiated by most skiers. Skiers can expect wider vegetation clearances and fairly flat grades with occasional short uphill and downhill pitches. Snow conditions can be variable.
 - MODERATE. More Difficult Trails with moderate challenges that require intermediate skiing ability and techniques. Skiers need to expect steeper grades, reduced vegetation clearances, and more limited room to maneuver. Snow conditions can be variable.
 - DIFFICULT. Most Difficult Trails with difficult challenges that require advanced skiing ability and techniques. Skiers need to expect steep terrain, little room to maneuver, narrow vegetation, and inconsistent snow conditions.
- Trail Segment Length. Length between junctions or nodes in KILOMETERS
- Summer Trails. Not maintained nor marked for Winter use and may be difficult to find and traverse unless designated as a Winter Trail
