

# CHUGACH NATIONAL FOREST

## SCHEDULE OF NEPA PROPOSED ACTIONS

April 15, 2003

### SUPERVISOR'S OFFICE

**Project: Forest Plan Revision.**

**Location:** Chugach National Forest, southcentral Alaska.

**Description:** The Forest revised its Land Management Plan. The original Plan was completed in 1984. Changes to environmental, social, and legal conditions were integrated into the revised Plan.

**Scoping Status:** Formal scoping commenced with the publication of the Notice of Intent in the Federal Register on April 21, 1997 (Volume 62, Number 76). Preliminary revision issues were identified in the first edition of the Revision newsletter. Public workshops were conducted throughout southcentral Alaska in November and December 1997. Over 1,000 letters, containing over 3,000 comments, were received during the scoping period. Analysis of those comments was used to identify the significant issues. The significant issues have been described as 'situation statements' and 'Public/Agency Interests'. The Situation Statements involve public interests, which may be mutually exclusive, with a range of possible ways for resolution. A summary of public interest and situation statements was sent out to participants on the revision mailing list. Management Area Prescriptions were developed in response to the situation/interest statements. Collaborative Learning workshops were conducted in March 1999, to seek input from the public for formulating draft alternatives. The prescriptions were applied to various areas around the Forest to develop a range of alternatives. The Forest Service Interdisciplinary Team created eight draft alternatives. Groups and individuals representative of the public submitted another twenty-two alternatives. On December 19, 1999, the Chugach National Forest Supervisor Dave Gibbons approved a range of six alternatives, A through F, along with the existing "No Action" Alternative to be analyzed in detail. From this range of alternatives, a single preferred alternative was derived. The draft preferred alternative map was completed, and posted May 2000 on the Chugach Forest Revision Website ([www.fs.fed.us/r10/chugach/revision/](http://www.fs.fed.us/r10/chugach/revision/)). The draft EIS and revised Forest Plan were posted on the Revision Website in August 2000, and available for public review through mid-December 2000.

**Analysis Status:** The Record of Decision for the Revised Forest Plan and the Final Environmental Impact Statement are complete. The record of Decision was signed on May 31, 2002, and was sent by e-mail to those who participated in Interdisciplinary Team meetings, and it was posted on the internet at: [www.fs.fed.us/r10/chugach](http://www.fs.fed.us/r10/chugach). The Revised Forest Plan, Final Environmental Impact Statement, and Record of Decision were released to the public on July 26, 2002.

**Decision Date:** The Notice of Decision was published in the newspaper of record on July 26, 2002. The ninety day appeal period closed October 24, 2002. The Forest received a number of appeals to which responses are currently being reviewed in the Washington Office. The Regional Forester is the Responsible Official for Revision of the Forest Plan.

**Contact Person:** Chuck Frey, Forest Supervisor's Office, (907)-743-9557.
