

## CHUGACH NATIONAL FOREST

### SCHEDULE OF NEPA PROPOSED ACTIONS

July 1, 1999 - June 30, 2000

Enclosed is our current list of the proposed projects on the Chugach National Forest. If you know of someone who would like to be added to or removed from our mailing list, please call or write Linda Kelly, Environmental Coordinator, Chugach National Forest, 3301 "C" Street, Suite 300, Anchorage, Alaska 99503-3998, (907) 271-2527 or FAX her at (907) 271-3992. To comment or receive information on a specific project or to review a completed (Environmental Assessment) prior to the final decision, please call or write the contact person listed for the specific project in which you are interested. Addresses and telephone numbers are listed in each section.

### **SUPERVISOR'S OFFICE**

#### **Forest Plan Revision**

**Location:** Chugach National Forest, southcentral Alaska.

**Description:** The Forest is revising its Land Management Plan, from the original Plan completed in 1984. Changes to environmental, social, or legal conditions will be intergrated into the revised Plan.

**Scoping Status:** Formal scoping commenced with the publication of the Notice of Intent in the Federal Register on April 21, 1997 (Volume 62, Number 76). Preliminary revision issues were identified in the first edition of the Revision newsletter. During the months of November and December 1997, public workshops were conducted throughout southcentral Alaska. Over 1,000 letters, containing over 3,000 comments, were received during the scoping period. Analysis of those comments was used to identify the significant issues. The significant issues have been described as 'situation statements' and 'Public/Agency Interests'. The Interest Statements are mutually exclusive, with a range of possible ways for resolution. A summary of public interest and situation statements was sent out to participants on the revision mailing list. Collaborative Learning workshops were conducted in March 1999, to seek input from the public for formulating draft alternatives.

**Analysis Status:** The interdisciplinary team is currently developing a range of alternatives, and is working with members of the public who want to develop their own alternative.

**Decision Date:** The Draft Forest Plan and Environmental Impact Statement are scheduled for completion in late 1999, with a final version in June 2000. The Regional Forester is the Responsible Official on the Revision to the Forest Plan.

**Contact Person:** Gary Lehnhausen, Forest Supervisor's Office, (907)-271-2560.
