

Appendix D - Winter Use Figures from Observations at Winter Access Points on Glacier and Seward Ranger Districts

Glacier Ranger District (12/4/1999 through 4/13/2003)

Access Point	Average Use per Weekend Day (# of vehicles)		Highest use per weekend day (# of vehicles)	
	Motorized	Non-motorized	Motorized	Non-motorized
Twentymile	3	<1	14	4
Placer River	9	<1	35	7
Ingram Drainage	<1	10	5	35
Turnagain Pass	32	14	128	40
Johnson Pass North	7	5	15	7

This data is based on observations of vehicles parked at the access point. A complete compilation of winter use access counts is available on request from the Glacier Ranger District.

Seward Ranger District (12/1/1999 through 4/8/2002)

Access Point	Average Use per Weekend Day (in # of people)		Highest use per weekend day (in # of people)	
	Motorized	Non-motorized	Motorized	Non-motorized
Moose Pass Community	4	0	20	0
Johnson Pass South Trailhead	2	< 1	6	4
Snow River	< 1	3	4	6
Bear Creek	2	3	19	10
Lost Lake Trailhead	24	< 1	56	6
Primrose Creek Trailhead	13	< 1	30	1
Snug Harbor Road	24	< 1	56	6

This data is based on observations of people at the trailhead (getting ready to leave or coming back from their trip) and vehicle counts with a base assumption of a certain number of people per the type of vehicle parked at the access point (i.e. number of snowmachines able to fit on one trailer, size of vehicle, etc.) A complete compilation of winter use access counts is available on request from the Seward Ranger District.
