H3	7.5	Connecting Trail	Bike Path	-	5	-	-	-

* Indicates existing, planned or proposed AK Department of Transportation or AK Railroad INHT segments.
 ** Indicates actively managed trail use. Other trail uses allowed unless prohibited.

Kenai Lake Area Summary: Existing trail segments in the Kenai Lake Area begin at the Goldenfin Trailhead, a State-managed facility used primarily for cross-country skiing (KL1). This section climbs up to approximately 1,000' elevation and continues on to the existing Grayling Lakes Trail (KL4) that traverses semi-open sub-alpine forests of hemlock/spruce and provides angler access to excellent lake fishing in several small lakes. Victor (KL6) and Ptarmigan (KL7) Creek are existing trails that provide access to the Iditarod in alt 2-4. Primrose Trail (KL8) is another existing trail that would be an INHT winter route in alt. 4.

Bike Path: Two trail segments—along the Seward Highway are displayed on the map (H2 & H3). Both are bike paths that are planned as part of DOT's Highway reconstruction projects. Together these segments would account for approximately 21 miles of paved bike path.

Trailheads: Access to the Kenai Lake Area trails would be provided at four trailheads. They are: Goldenfin Lake (MP11.4), Grayling Lakes (MP13.3), Victor Creek (MP19.5), and Ptarmigan Creek (MP23).
