0021550-001	we enjoy the use of Chugach National Forest for both summer & winter recreation. In winter we all Ski & Snowmachine. We am very concerned at the proposed changes to our use of Twenty Mile River, Lost Lake, Devils Pass Trail. These are areas we use every winter, we enjoy the ease of off road parking, and access to these areas. Since I have a four place trailer & full size truck, it's difficult to find safe parking in some other spots

I hope that the Kenai Peninsula can remain as beautiful in the future as it is today. I lived in Kenai in 1998 and was employed as a staff photographer at the Kenai Peninsula Clarion, the peninsula's local newspaper. Cutting back on traffic during the summer months would be a great idea, as much environmental damage is created due to tourists who do not respect the land. The residents must deal with the aftermath after the summer tourist onslaught.

Please consider keeping the Kenai Peninsula protected, and limit the motor traffic to the peninsula. There are limits to hunting permits, etc. for the locals, so why not place restrictions on those who just come during the 'good' months and do not live there year round?

Sincerely,

Dave Luchansky
