

## *Public Service Announcement* TONGASS NATIONAL FOREST

June 25, 2012

[Twitter@TongassNF](#)

The Tongass National Forest Sitka Ranger District will work on replacing the rental cabin at White Sulphur Springs on Chichagof Island throughout the month of July. The entire site, including the outdoor pool, will be closed for use during this time, and the bathhouse over the warm springs will remain closed until further notice. The building is in poor structural condition and is at risk of collapse. The US Forest Service appreciates the patience of all users during this closure. Please direct questions to Annemarie LaPalme, 907-747-6671.
