

Public Service Announcement TONGASS NATIONAL FOREST

23 September 2011

A culvert at 12.7 miles on the Polk Inlet Road blew out this week, prompting Forest Service officials on Prince of Wales Island to close the road. The culvert will be replaced and the road reopened as quickly as possible; until then, the road is completely impassable at that point. Contact the Craig Ranger District at 826-3271 for more information.
