

Pike and San Isabel National Forests

Forests Plan Revision

Need for Change Workshop Individual Worksheet

Instructions:

We would like you to answer three main questions:

1. **The What:** Considering what you know of the Pike and San Isabel National Forests (that may be related to places, resources, or topics of interest)
 - a) what about the Forests do you think is working well and requires no change, and
 - b) what about the Forests do you think should change?
2. **The Why:** Why should these remain the same or why should they be considered for future change?
3. **The Where:** Where are places that exemplify the issues raised in 1 and 2?

To add additional information, use the table on page 4 of this worksheet. If you are completing your individual worksheet at the public workshop, please give your worksheet to the note taker of your group.

Taking the worksheet with you? All individual worksheets completed after the workshop must be mailed, faxed, or hand-delivered by **March 2, 2007**, to any of the Ranger Districts on the Pike and San Isabel National Forests, or to the
