

LAND AND RESOURCE MANAGEMENT PLAN  
PIKE AND SAN ISABEL NATIONAL FORESTS  
and  
COMANCHE AND CIMARRON NATIONAL GRASSLANDS

**AMENDMENT NUMBER 7**

July 1987

<u>Page Code</u>	<u>Superseded</u>	<u>New</u>
Chapter III, Page III-84 (Table III-3)	1	1
Forest Plan Map	1	1

Reason For This Amendment:

This amendment is necessary because of a Forest Plan Map error found during Plan implementation.

The Forest Plan Map (San Carlos District) needs to be corrected to accurately reflect Forest Plan application of Capability Areas to Management Areas (Forest Plan Appendix E, Allocation of Capability Areas to Management Areas).

There is a discrepancy between the Forest Plan Map and Appendix E for Geographic Area 3894, Capability Area SF060, Number 008 and Management Area 3A in portions of Sections 19, 20, 29 and 30, T.24 S., R.68 W., 6th P.M.

Currently the Map displays this area as a 3A Management Area (Emphasis Is On Semiprimitive Nonmotorized Recreation In Roaded Or Unroaded Areas). The Forest Plan intended that this area have a 2B Management Area Prescription (Emphasis Is On Rural And Roaded-Natural Recreation Opportunities), which reflects management emphasis more suitable for these lands.

Amendment Number Number 7:

This Forest Plan amendment changes Management Area Summary Table III-3 (Forest Plan, Chapter III, Page 84), to show a change in the acreage in two management areas. Management Area 2B acreage increases by 3,278 acres. Management Area 3A acreage decreases by 3,278 acres.

Maps displaying these Management Area changes are on file at the Forest Supervisor's Office.

In accordance with the implementing regulations of the National Forest Management Act (Title 36, Code of Federal Regulations, Part 219.10 (f)) and Forest Service Manual 1952.2, I have determined that this amendment will not result in a significant change in the Plan and is not a significant amendment. Therefore, I have determined that categorically excluding this amendment from documentation in an environmental assessment or impact statement is appropriate completion of NEPA procedures.
