

LAND AND RESOURCE MANAGEMENT PLAN
PIKE AND SAN ISABEL NATIONAL FORESTS
AND
COMANCHE AND CIMARRON NATIONAL GRASSLANDS

AMENDMENT NUMBER 25

(September 27, 1994)

<u>Page Code</u>	<u>Superseded</u>	<u>New</u>
Forest Plan Map (North Portion)	1	1

Reason For This Amendment:

A decision has been made to issue a special use permit to Public Service Company of Colorado to construct and operate an electric transmission line on National Forest System lands between Divide and Lake George. Accordingly, the Forest Plan is being amended to show a utility corridor embracing the selected route over National Forest System lands.

Amendment Number 25:

The north portion of the Forest Plan Map is modified to show the newly-established utility corridor. See the attached sheet for the corridor's location.

Table III-3 on page III-84 is modified to show a new total of **8,008** acres of Management Area 1D (Utility Corridor). This figure results from adding **1,401** acres to the previous total of 6,607 acres.

I have determined that, according to 36 CFR Part 219.10(f), this is not a significant amendment to the Forest Plan .
