D. Others Persons or Groups

The following organized groups provided written input to the environmental analysis:

- Continental Divide Trail Alliance
- Twin Lakes Improvement Association
- Continental Divide Trail Society
- Colorado Trail Foundation

In addition to comments received from the groups listed above, opportunities for public input were provided at three public scoping meetings held Wednesday, November 3, 2004, 5:30-8:30 PM at the National Mining Hall of Fame and Museum; November 4, 2004, 5:30 - 8:30 PM at the Chaffee County Fairgrounds; and Wednesday, March 30, 2005 6:00-9:00 PM at the Twin Lakes Schoolhouse. The meeting format was intended to promote informal interaction, with exhibits and opportunities to make written and verbal comments. The 50 attendees were asked to visit four stations to learn more about the background, existing conditions, issues and alternatives, and provide their input to Forest Service representatives and the consulting team.

Attendees provided their input directly on the boards, to representatives, or on comment sheets. A list of comments is available in the Public Scoping Meeting Summary. Individual comments and the project mailing list are contained in the project record.
